Answers Your Insurance Questions

QUESTION: We haven't changed the fire insurance on our home and furniture for many years. Some of our things have become almost worthless but some have increased in value including the house itself. How can we arrive at an accurate figure on the value?

ANSWER: Call in a good insurance agent for an appraisal of the house and then make a complete inventory of all your furniture and personal effects. It won't take as long as you think and you'll have a pretty good idea as to how much fire insurance you should have.

This public service is our way of advertising. Your insurance questions will be answered without charge or obligation if you'll send or bring them to
