Supt. David Potter of Morrow County schools spent three days in a Portland hospital last week when he became ill with a kidney ailment while on a trip to

Portland to interview prospective teachers. He came home on the week-end and was feeling improved by mid-week but still not up to par.

Owned and Operated By **PAUL N. HANSEN**

Will be available for assistance with your spraying and fertilizing problems. Will be using a new, high concentrate spray system that is 95% efficient, as compared to 30% efficiency with a boom and nozzle system. This system reduces the amount of 2, 4-D necessary by 1/3 to 1/2, due to complete saturation of the weeds, resulting in a considerable saving to the farmer and a reduced shock to the grain.

Inland Chemical Service of Heppner handles the new concentrate 2, 4-D used most effectively for hard to kill weeds and this new spray system.
