A MESSAGE IN THE PUBLIC INTEREST  
about repeal of the 1913 Excess Freight Train Crew Law being considered by the 1965 Legislature.

# OREGON CAN'T COMPETE

with other states unless the 1913 Excess Freight Train Crew Law is repealed!

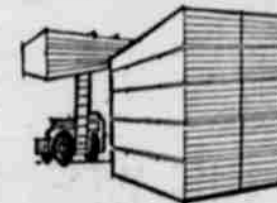

Oregon is one of only two states west of Chicago in which an archaic law saddles every consumer with the burden of paying for unnecessary firemen and brakemen on freight trains. This burden amounts to over \$5,000,000 a year. California repealed a similar law last year.

## YOU PAY THE FREIGHT

**Freight Rates Are Based On Railroad Costs**

All railroad freight rates are subject to approval of the Interstate Commerce Commission which can investigate, suspend, and in some instances prescribe specific rates. Since the Interstate Commerce Act was amended in 1958, the primary consideration of the I.C.C. in arriving at rate case decisions has been actual railroad operating costs.

**What's your business?**

**LUMBER?**

When southern lumber shippers get a lower freight rate to prime midwest and eastern markets, and you still have to compete, what happens?

**LIVESTOCK?**

You have asked the railroads to reduce westbound feed rates so you can compete with growers in other states. What if the I.C.C. should deny the reduction because of railroad costs?

**GRAIN?**

If railroad competitors are successful in persuading the I.C.C. to suspend recent railroad rate reduction, and you still have to compete, what happens?

**ORDINARY CONSUMER?**

Much of what you buy is made elsewhere. What happens when the trains carrying goods to you have to stop at Oregon's border to take on an excess fireman and brakeman for the ride through Oregon?

Remove this handicap to Oregon's industrial growth
