## Wheat League Sets Field Day Tour

The Oregon Wheat Growers League announced this week that it will hold its annual Soil Conservation Field Day on June 10 at the Willis Nartz ranch near Ashwood.

The Jefferson County grower won the 1964 Soil Conservation Man of the Year title awarded annually by the farm organization. At the all-day tour, he will demonstrate for fellow growers and farm editors the conservation practices that won him the state award.

Wheat League president Melvin Pace of Enterprise reported that the Nartz tour will be combined with a two-day program aimed at acquainting Oregon press representatives with current farm operations and problems. He said that numerous media have been invited to stay with farm families for a first-hand look at the 1965 wheat situation.

"Despite the fact that our wheat industry is one of Oregon's most important," Pace stated, "most of the non-farm public has little direct contact with it. We welcome this opportunity to meet with the news media and expose them to the wide range of problems and complexities that our industry faces."

Pace said that nearly 100 Wheat League members are expected to attend the gathering, where they will discuss erosion and flood conditions, farm programs and income, and production techniques and equipment. The meeting will convene at the Stag Cafe in Madras for a luncheon on June 9.

The Nartz ranch tour on the following day will get underway at 10:30. Pace said. Observers will be shown over the 7200-acre spread by host Nartz, who will point out the erosion controls he has developed. These include a 3300-foot diversion ditch, sod waterways, extensive cross fencing, and stock ponds and spring developments.

About 1200 acres of the Nartz ranch is cultivated, half of which is devoted to wheat. After a lunch at the ranch headquarters, visitors will hear from Soil Conservation Service agent Don Vanderveiden before embarking on the afternoon tour conducted by Nartz.

## How to freeze the rising cost of living

An electric freezer is like having your own super market right in your home! You can buy seasonal specials when prices are low; store them in your freezer and serve later when the same food may cost twice as much. It's easy to freeze fruits and vegetables, too. No mess. And you always keep that wonderful garden-fresh flavor. It's mighty handy when unexpected guests arrive because you'll always have extra food available.

Yet an electric freezer costs only pennies a day to operate, thanks to low-cost rural electric power.

## ELECTRIC FREEZER

Take advantage of low summer prices on many foods and meats. Store them in your electric freezer or refrigerator-freezer and serve later. Another good way you live better with rural electric power!
