NOTICE TO OUR PATRONS:

Effective today we are calling in for payment all series 12 Capital Reserve Certificates issued on the 1953 crop. Please endorse and mail in to us or bring personally, all the series 12 certificates you have on hand. In exchange we will give you a check for the face amount of these securities or, if you wish, will issue you Class A Preferred Stock bearing 5 percent interest in units of \$50.00 per share. Please advise us if you want cash or stock.

This money was credited to you as your share of the profits made during the 1953 crop year on the basis of patronage. Again we wish to point out that our storage charges were no higher and our buying prices were no lower than any of our competitors during 1953. This refund or payment is therefore an addition to your income for that year, over and above what you would have received had someone else handled your grain. The total payment to all growers will amount to about \$125,000 and should prove a real boost to our county's economy.

You were required to pay federal income taxes on this sum when it was issued so no more federal taxes will need be paid if you can show these earnings were declared when you filed your tax report.

The money for this payment comes from later years' profits and we will continue such retirements as earnings build up new investments through retention of the earnings of later patrons. Many thanks for your patronage and friendship.

Sincerely,
Al Lamb, Treasurer
