"WE ARE AMERICANS" Music for Our Country's School Children

"To create the love of music in a child ... is an artist's finest reward!"

No artist is better qualified to speak such words than Carmen Dragon, conductor of the Standard School Broadcast, heard by millions of children in their classrooms, and adults in their homes, on Thursdays throughout the school year.

"What a thrill," says Dorothy Warenskjold, "to open a world of music to American children." "It is a wonderful privilege to share in this creative work," says Paulena Carter. "The child with a love of music grows into a richer person," says Norma Zimmer.

For these stars of opera, concert, radio and television, as for many others, the Standard School Broadcast helped to start their present successful careers. They have performed regularly since, with enthusiasm.

These distinguished artists are only a few of hundreds who have made this unique program, from opera to folk music to symphony to jazz, an American educational asset. They gladly take time from their busy lives to perform with Standard Oil because "To create the love of music in a child is an artist's finest reward."

"We Are Americans," the 38th annual Standard School Broadcast radio series, begins October 21, 1965. Please consult local papers for time and station.
