

Overseas Market Study Tour Set To Help Oregon

The market structure for grain in Japan, Australia and the Philippines will be studied by Ray Teal, Oregon State University extension marketing specialist, during a Federal Extension Service sponsored tour in April and May.

Japan and the Philippines are important outlets for U. S. grains, particularly wheat, and Australia is one of the major U. S. competitors for grain markets in the two countries. Five extension grain marketing specialists from throughout the U. S. will make the trip, which will provide the specialists with the technical knowledge needed to assist the U. S. grain trade to maintain and expand overseas markets.

The importance of grain exports to the economy of the Pacific Northwest is pointed up by the statistics, says Teal.

During the 1964 crop year, some 143-million bushels of grain were shipped from ports in the Pacific Northwest. About 85 percent of the western white wheat grown in the Pacific Northwest is exported. Some 65 million tons of grain were shipped to world markets from Port of Portland alone during crop year 1964.

Japan is the No. 1 customer for U. S. agricultural products as a whole, and top cash customer for wheat, according to Teal.

American Cancer Crusade Started

The annual April crusade of the American Cancer Society started Friday, April 1, in Oregon and throughout the nation, spurred by the knowledge that the disease is the nation's No. 2 killer and encouraged by the results of the society's educational and research programs over the past several years.

Robert P. DeKoning of Portland, Oregon crusade chairman, has promised "the most intensive campaign of fund-raising and public education" in the crusade's history, sparked by "volunteers in the thousands who are pledged to provide scientists with the funds they need and dedicated to bringing cancer's seven danger signals to the attention of the public."

DeKoning, director of research and corporate planning for Jantzen, Inc., said every effort will be made to reach each Oregon resident during the period of the crusade, either personally or by mail. He reminded, however, that some persons are sure to be missed. To these persons, he urged:

"Send your contributions to Cancer, care of your local post office, and write the society's Oregon division in the Park Building, Portland, for educational literature, particularly the danger signals. You can't know too much about cancer, and knowledge of the danger signals might save yourself or a loved one."

Governor Mark O. Hatfield, a longtime volunteer of the society's Oregon division, has stated that the society's "continuous program of research, education and service has resulted in tremendous gains in the attack on the cancer scourge."

"It is imperative," Hatfield said, "that the work of the society be continued if this most dreaded disease is to be conquered for all time."

DeKoning pointed out that more than \$200,000 in crusade funds were at work in Oregon during the past year, being spent on research projects at hospitals, Oregon State university and the University of Oregon medical school. The total included \$108,131 from the American Cancer Society and \$99,865 from the society's Oregon division.

April has been designated as cancer control month by the U. S. congress.

Water Outlook Below Average

Outlook for spring and summer water supplies in Umatilla, Morrow and Gilliam counties is slightly below average and the users from McKay reservoir will have a short supply unless they practice good water management, according to a report released today by A. J. Webber, state conservationist for the USDA Soil Conservation Service, and prepared by W. T. Frost, state snow survey supervisor.

Water content of the mountain snowpack is down slightly to 92 percent of the 15-year average (1948-62) and about equal to last year's water content. Recent high temperatures and winds have removed much of the extra heavy snow which was present at median elevations.

Moisture in the top four feet of the soil mantle under the snowpack is about 81 percent of the capacity compared with 86 percent of capacity a year ago. These soils will continue to absorb snow-melt water.

Butter Creek is forecast to flow 90 percent of the average this spring and summer. Flow of smaller streams, heading in lower elevations, is expected to be slightly below average in volume this year.

Statewide, the outlook for spring and summer water supplies now ranges from "very good" in the western half of the state to "poor" in scattered eastern Oregon areas in Umatilla, Union, Baker, Malheur, Grant, Wheeler, Crook, Harney, and Lake counties. Carryover water supplies will "save the day" for many eastern Oregon irrigators.

Club Named 'Chefs'

The 4-H outdoor cookery club met at the Wolff home Wednesday, April 6, and chose the name, "The Chefs," for the group. Officers include Andy Myers, president; Patric Smith, vice president; David Schmidt, secretary; and James Ployhar, reporter. Other members are John Kilkenny, Joe Kenny and Tommy Wolff. The club read

B. C. MATHEWS (right) of the Mathews Company at Crystal Lake, Ill. recently purchased the Wilkerson Nutwell, Inc., and its divisions, Harvesters-Implement, Inc. and Harris Harvesters, Inc. of Fresno, Calif. At left is C. V. Bailey, vice president and general manager of Harris Harvesters. Mathews said farmers are now demanding bigger equipment with more capacity and production to meet greater crop yields resulting from new varieties of grains and seeds. He says that he feels that the Harris combine has a great potential now that the trend is toward greater production and larger farm machines. Inland Equipment Company of Heppner is local dealer.

Pacific Gas Gets Safety Citation

National Safety Council in Chicago on March 23 awarded Pacific Gas Transmission Company employees their third Certificate of Commendation in three years for a perfect safety record.

The honored employees include a crew of 12 men based at PGT's Wallula Compressor Station. They maintain the pipeline between the John Day River and the Snake River, including Morrow and Gilliam counties.

about and discussed freezing sandwiches for sack lunches. Tom, Andy and Patric will freeze a peanut butter and jam sandwich and bring them next time as experiments. The chefs are each to bring two kabob graan sticks next meeting. James Ployhar, reporter

The pipeline company's 99 employees—in northern Idaho, eastern Washington, central Oregon and the home office in San Francisco—have worked more than 788,000 man-hours since the start of operations in December 1961.

During the past four years not one employee has suffered a lost-time injury.

Pacific Gas Transmission owns and operates the Idaho-Washington-Oregon section of the Alberta-California pipeline. "The Big Yard" carries Canadian gas to San Francisco and also delivers it to northwest communities along the pipeline on behalf of the local wholesaler and distributors.

The Safety Council's Certificate of Commendation was sent to PGT Operations Manager Herbert A. Danielson in Spokane.

Appeal to Public Urges Response

An appeal for persons to respond to the Easter Seals they received from Oregon Society for Crippled Children and Adults has been made by the society's president, Dick Yost, Portland insurance executive.

"We are grateful for the results to date," Yost stated, "and are hopeful that thousands of persons in the state are merely a little later than usual in purchasing their Easter Seals."

Yost urged those who have mislaid or failed to receive an Easter Seal contribution envelope to mail their checks to Easter Seals, care of their local post offices.

The society president pointed out that Easter Seals "are a symbol of hope for many of Oregon's physically handicapped children and adults" and asserted that "if every person in the state could see what is accomplished, we would have 100 per cent participation."

The Easter Seal campaign was climaxed in most cities of the state April 1 and 2 when volunteers sold paper lapel lilies on busy street corners.

Society projects include:

1. Children's Hospital school, Eugene.

2. Camp Easter Seal on the coast.

3. Mobile therapy clinics that travel over the state bringing physical therapy to those in need, and

4. An equipment pool that supplies crutches, wheelchairs, walkers, braces, hydraulic lifts and artificial limbs to those in need.

During the past four years not one employee has suffered a lost-time injury.

Health Committee Slates Hearings

Oregon's Legislative Interim Committee on Public Health will hold three hearings in eastern Oregon April 20-22.

According to Chairman Morris K. Crothers, R. Salem, the committee will receive testimony on local public and mental health services, water and air pollution, hospital planning, medical laboratory licensing, nurses' training programs, and the composition and organization of the State Board of Health.

"We want to get reaction on these important subjects from

residents of all parts of the state before making our recommendations to the next legislative assembly," Crothers said.

The hearing schedule is: Enterprise, April 20, Walla Walla Co. Courthouse, Moro, April 21, Courthouse, Prineville, April 22, Crook Co. Courthouse.

The committee members will meet with county officials from adjacent counties from 11:00 to 3:00. At 3:00 the meeting will be open for statements from other interested persons. All sessions are open to the public.

Notice of Budget Hearing

The budget for the Port of Morrow for the fiscal year 1966-1967, beginning July 1, 1966, as detailed and summarized in the accompanying schedules was prepared on an accounting basis consistent with that used in prior years. Major changes, if any, and their effects on this budget are set forth in an accompanying statement. A copy of the budget document may be inspected by interested persons between the hours of 1:00 P.M. and 3:00 P.M., on any week day, City Hall, Boardman, Ore. The budget document, or any portion of it may be obtained for \$5.00 complete, or \$1.00 per sheet at said times and place. A meeting of the Board of Commissioners will be held April 28, 1966, at 8:00 P.M. at City Hall, Boardman, Ore. for the purpose of holding a public hearing on this budget. Any person may appear to discuss the budget or any part of it.

Signed:
DEWEY W. WEST, JR.
President, Port of Morrow
