Mrs. Dick Installed Regional PTA Officer

The rare privilege of being installed in a state PTA office by the national president of the organization, Mrs. Jennelle Moorehead, was enjoyed by Mrs. L. E. (Rachel) Dick of Heppner last week. Mrs. Dick was elected Regional vice-president of Region 9 at the organization's convention in Klamath Falls and, together with the other newly-elected officers, assumed office Wednesday night at the banquet.

Mrs. Moorehead flew to Oregon from Washington, D. C., to install the new officers and to address the delegates at the concluding session.

Mrs. Clyde Allstott and Mrs. Robert Benson, local delegates representing the Heppner Grade school PTA, accompanied Mrs. Dick to the convention, held in the facilities of Oregon Technical Institute.

Highlights of the meeting, which began the evening of April 18, included a telelecture presented by T. S. Warshaw, English teacher at Newton High school in Massachusetts. The topic was "The Bible as the Background for Humanities and Everyday Life." The remarks of the speaker, who was 3,000 miles away, were amplified by loudspeaker and accompanied by slides flashed on the wall. At the end of the lecture members of the audience asked questions by microphone.

During the business meeting on Tuesday the delegates approved an increase of 15-cents in dues and used panel discussions and buzz sessions to study the legislative platform and action program for the coming year before they were adopted. Platform for this year was "Facing the Critical Issues in our Democracy."

"Clarifying the Responsibilities of Educational Decision Making," critical issue number 4 from the National Congress of Parents and Teachers, was discussed Tuesday evening by a

panel moderated by Dr. Ken Erickson, superintendent of Corvallis schools. Panel members included Dr. Leon Minear, state superintendent of public instruction; Dr. Howard Cherry, Oregon School Boards Association; Mrs. Ruth King, former president of the Oregon PTA and now a vice-president of the national organization, and Ralph Rand, president of the Oregon Education Association.

The Heppner delegates enjoyed informal discussion of state politics Tuesday evening at their regional dinner, where Dr. Minear and Mrs. Albert Gassner, president of the Oregon Congress of Parents and Teachers, were fellow guests.

Mrs. Moorehead presented a stirring address at the concluding session. "Whether the issue is drinking or sex education, or new math, what the PTA thinks and does is important," she stressed. "The PTA can influence outcome of critical issues confronting our nation. Never before in its history has the PTA been more necessary to the well-being of children and our nation."

"Never before was the nation more aware of the importance of quality education for all children," she emphasized. "This is a theme on which PTA has hammered for half a century or more. There is now widespread recognition that lack of education, under-education, inferior education, result in lack of employment, under-employment and poverty."

Mrs. Dick, who is now a member of the state executive board of the OCTP, has served as a member of the Board of Managers for two years in her capacity as president of Midland Council. Her district extends from Bend to Hood River and eastward to Morrow county. Her term of office is for two years.

Heppner High school and Elementary PTA's were among those in Oregon cited for outstanding work in membership and were presented gold Oak Leaf awards.

Pendleton was selected to host the 1967 convention. The executive board tentatively set the last week of April for the meetings.

Legionnaires to Meet

All members of the Heppner American Legion Post 87 and Auxiliary are urged to be present Monday evening, May 2, for the monthly meetings. Potluck dinner will be served at 6:30. An invitation has been extended to the District Legion Commander to be present for the evening.

Wheat Utilization Program Tells of Work Done Abroad

Foreign and domestic utilization of United States wheat was brought to the attention of members of the Soroptimist club at its luncheon meeting Thursday noon, April 14.

Guest speakers for the program were Mrs. Doug Drake and Mrs. Louis Carlson, both active in wheat utilization programs in Morrow county. As this year's county chairman, Mrs. Carlson reviewed the ways in which local wheat organizations promote education in the use of wheat products, through wheat leagues' baking contests in county fairs, eighth grade tours, granges, schools, and others.

PTA Study Group To Meet Monday

PTA study group will continue its series of meetings Monday night at the same place, Heppner elementary school library, Mrs. Jane Rawlins, chairman, states. However, the time will be 8 p.m. instead of 7:30 as it had been in the past.

The study group is considering what might be done to change the "educational climate" in Morrow county and what may be done to attract and keep good teachers.

Mrs. Drake, after outlining the program of foreign wheat utilization, presented a group of narrated colored slides put out by Western Wheat Associates, which promotes use of wheat in foreign markets. Oregon wheat farmers, indirectly, help support the program through taxes paid into the Oregon Wheat Council in their sale of wheat, she pointed out.

Countries which are making great stride in educating their people in milling of wheat and incorporating wheat products into their food needs are Japan, China, Philippine Islands, India and Pakistan. Many of the countries are giving technical training in modern baking industries, special education through their lunch programs, increasing commercial packaging and distribution of larger varieties of wheat products, creation of new industries, and others. Nutrition needs of the young people are being met through the improved lunch programs.

Records show that Japan is now the largest cash customer for U. S. wheat. Bread, recently new to the country, is now served in 100,000 schools in Japan, with many of the schools

having their own pilot bakeries and teaching the art of baking in the schools. Pancake promotions are especially popular in department stores, with the giving out of free samples.

In China, bulgar wheat has a vital role in relief feeding, usually mixed with the staple rice. Noodle manufacturing is constantly expanding there.

Wheat Associates finds its greatest challenge in India and Pakistan, where milling is still by crude, hand methods, and only 20% of the population is educated to read or write. Eighty percent of the people must be shown by personal demonstrations how to use flour and bulgar, which have helped greatly in relieving famine among the heavy populations. Lack of modern transportation and handling equipment is still a big problem there in taking care of the 20,000 tons of wheat received in the ports there each day.

Guest speakers were introduced by Mrs. Bill Johnson, program chairman. During a short business meeting, Mrs. Charles Starks, president, discussed a nominating committee for new officers. Three members, Mrs. Starks; Mrs. Wavel Wilkinson, vice president, and Mrs. Emil Groshens, regional representative, attended the Northwest Regional Convention in Spokane, Wn., last week-end April 23, 24.

last Thursday noon with the Morrow County TB and Health Association, to hear Dr. Samuel B. Osgood, Portland, speak on current health legislation proposed for the state of Oregon.

Elks Lodge to Host Student Dance Friday

Free entertainment will again be provided the high school students of Heppner and lone on Friday evening, April 29, when Elks Lodge No. 358 will sponsor its annual high school dance at the Elks Temple.

Dancing will be from 9:00 to 12:00 with music furnished by The Dantes. All Heppner and lone area students are invited to attend. Refreshments will be prepared and served during the evening by the Soroptimist club, provided by the Elks lodge.
