An Electric Freezer brings convenience and economy to your home

You save money because you can easily preserve so many home-grown vegetables and fruits. There's little fuss and muss. Yet frozen food retains that wonderful "just picked" fresh flavor for months.

You save again when you buy seasonal specials when prices are low. Keep them in your freezer to serve months later when prices have climbed two or three times what you paid. In addition to vegetables, you'll save money on meats . . . even poultry

and fish will keep safely for months in an electric freezer. Convenience is another important advantage of an electric freezer. You save shopping trips because you can buy in larger quantities. Most families find that an electric freezer adds variety to their meals. There's always extra food available . . . even when unexpected guests stay for Sunday dinner. It's almost like having a supermarket in your own kitchen!

Many home-makers "cook ahead" for holidays and store entire meals in their freezers. Saves last min-

ute rushes. Just thaw and warm; complete meals are ready in no time . . . and you have time to enjoy your family and friends.

Vist your favorite appliance store to examine all the newest freezers. You'll particularly like the new frost-free combination refrigerator-freezer. They save all that messy defrosting and give years of trouble-free, *convenient* service.
