The inservice training on Wednesday, August 31, will be devoted principally to acquainting teachers with economics and industries of the county, the superintendent said. They will tour the Kinzua Corporation plant, Morrow County Grain Growers installations, and the Growers installations, and the Boeing development, among others.

The superintendent said that he feels it important that teachers understand the agricultural and industrial background of the county. He said that perhaps even some of the veteran teachers here have never been in a grain elevator. Some do not know what type of lumber is produced in local mills and what it is used for, he said. These bids were somewhat higher than some members of the board had anticipated, and only \$29,000 remains in the teacherage fund in the budget. Alfred Lovgren **Escapes** Serious Injuries in Cavein

Alfred Lovgren had a nar-row escape Monday afternoon when an overhanging bank caved in on the tractor he was operating on his Rhea Creek place. He was pummeled rath-er severely by the rocks and dirt and was buried to the waist in the tractor but apparently suffered no serious injury.

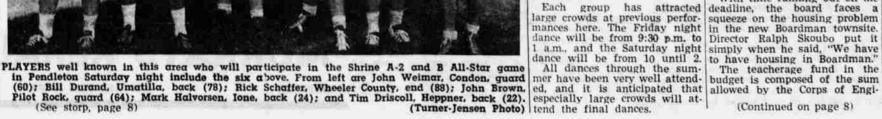

Lovgrer was doing some bulldozing work next to the bank which was some 25 to 30 feet high. He didn't realize that it was overhanging as much as it was, and it gave way when he drove the tractor

beneath. The dict pinned him against the gas cap and may have caused a separation in the rib cavity, judging by soreness he is now experiencing. It also knocked over the ex-

haust pipe which fell on him. Lovgren had some difficulty

turning off the tractor, but managed to do so and then extricate himself. Elwyn Hughes came and dug out the tractor, but Lovgren deferred going to the doctor or hospital until about 8:00, nearly four hours after the accident.

He was given outpatient treatment and was released. While he was not hospitalized, he is stil[#] and sore enough from the bruising to take it easy this week.
