Airlift to Speed Mail to Military Now in Vietnam

Postmaster James H. Driscoll of Heppner, today announced that henceforth all first class mail, personal sound recordings (voice letters), and parcels weighing 5 pounds or less and measuring not more than 60 inches in length and girth combined, will be airlifted on a space available basis between the United States and all military post offices overseas.

Also, under Public Law 89-725—the Dulski Military Mail Act—which was signed by President Johnson on November 2, 1966, second class publications such as newspapers and magazines published weekly or more often, and featuring current news of interest to the military, will be airlifted from San Francisco to the armed forces serving in Viet Nam.

Postmaster Driscoll explained that parcels weighing 5 pounds or less and not exceeding 60 inches in length and girth combined, paid at surface rates, will be moved by surface transportation within the United States from the points of mailing to the port of embarkation.

To speed up separation and delivery of these smaller parcels falling within this category, Postmaster General Lawrence F. O'Brien directed that all parcels be clearly marked upon acceptance at the post office with the letters SAM (surface airlift mail).

This will eliminate the task of reweighing and measuring the parcels at the San Francisco Concentration Center prior to dispatch to Viet Nam or other overseas military post offices.

Postmaster Driscoll also reminded mailers that Christmas parcels weighing 5 pounds and under, though they are given airlift priority from San Francisco to Viet Nam on a space available basis, should be mailed no later than December 1. Airmail, he said, should be sent no later than December 10.

The deadline for Christmas packages weighing more than 5 pounds going to Viet Nam and other overseas military post offices means was November 10.

Mr. and Mrs. Bob Booth and family, former Heppner residents, were visiting friends here over the week-end. After being transferred in his work with the Forest Service here two years ago, they lived for some time in Estacada, and are now located in Prairie City.
