Deadline Nearing On Essay Contest

Don Bristow, president of the Ione Lions club, advises those who are planning to enter the Lions' \$50,000 peace essay contest that they have only 10 days remaining in which to submit their essays.

Closing date for the entries will be December 10, and judging for the Ione Lions club's winner will begin soon thereafter," he said.

A total of \$50,000 in awards will be made, including a first prize of \$25,000 in educational and/or career assistance grant, eight semi-finalist awards of \$1,000, and travel expenses to Chicago, Ill., for these semi-finalists in July, 1967. At that time, the first prize winner will be chosen from the eight. Also, more than 20,000 local, district and multiple district awards will be made.

A panel of three judges will select a winner from the entries here to advance to the Lions district level of judging. Judging will be held on a club, district and multiple district level before approaching World Divisions appraisal.

The contest, largest peace essay contest in the world today is open to young people who are 14 years of age and under 22 as of January 15, 1967.

Further details of the contest may be had by contacting any member of the Lions club or me at Ione," Bristow said.

The president said that the club is pleased with interest shown so far but is hoping for a "last minute rush."

"It would be a great moment for our community if one of our contestants qualified for the grand prize in the contest," he said.

Ione Schools Aid In Clothing Drive

In response to Principal Harold Beggs appeal to all residents of the Ione area to support Save the Children Federation's 25th Annual Bundle Day Drive to be held in the schools from November 23 to December 12, children and adults are now collecting wearable used clothing and shoes to be distributed by the Federation to needy children in the Southern Appalachian Mountains. While the great need is for children's clothing, adult apparel is also welcome. All are asked to bring wearable used shoes, coats, dresses, suits and underwear to the Ione schools.

"In the Southern Appalachian Mountains where the boys and girls need an education if they are to develop their natural skills and talents and break out of poverty, too many of them are being forced to drop out of school for lack of presentable clothing," Beggs said.

Save the Children Federation, international child welfare organization, with headquarters in Norwalk, Conn., was founded in 1932. The Federation aids children, their families and communities in the Southern Appalachian Mountains, on American Indian reservations and in many countries abroad, through the sponsorship program, an international self-help scholarship fund and the annual clothing collection.

Get Ready to Enjoy Winter; Install Electric Heat Now!

Your family will enjoy a whole new world of winter comfort and convenience when you install Electric Heat.

And you'll be amazed how little it costs. Installation costs are low when you heat by wire because there are no expensive ducts or chimneys. Monthly heating bills are lower than for most old-fashioned heating systems.

But the biggest advantage of Electric Heat is comfort! It provides a steady, even heat; there are no "hot" or "cold" spots. You regulate the heat to the "just right" temperature for every room.

Most folks, for example, prefer bedrooms a little cooler than the living quarters. No problem with Electric Heat. Just set the thermostat to the most comfortable level; you'll be cozy warm all winter long.

There are lots of other reasons why so many folks are changing to Electric Heat. Families with young children particularly appreciate the extra safety factors. It's flameless; no dangerous fumes or smokes. The heating units are safe from little hands.

Of course, every home-maker is pleased with the cleanliness of Electric Heat. There are no oily films or streaked walls. Curtains and drapes stay clean and fresh longer. Electric Heat greatly reduces the time normally required for dusting and cleaning.

You'll save maintenance costs, too. There are few moving parts to oil (or wear out). No fires to build. Just set the thermostat and forget it.

Ask your rural electric cooperative for free information about Electric Heat. They'll gladly study your particular problem and make accurate estimates of your heating costs if you install Electric Heat.
