

Sherman Huskies Hand Mustangs First League Loss

By RICK JOHNSTON

The Sherman High Huskies, as hot as ever on their own basketball court, handed the Heppner Mustangs their first league setback, 58-51, Friday night. Mac Hoskins and Jim Doherty of Heppner, led all scorers with 18 points each. Gene Lanthorn with 14 and Dave Richelderfer with 12 topped Sherman. Doherty, hitting from as far out as 30 feet, kept the Sherman defense honest while Hoskins was superb from inside. The Mustangs came on fast in the first period but the Huskies kept pace and were down by 3 at the first rest period, 16-13. Heppner cooled down in the second quarter, scoring only half of Sherman county's 20-point output. The Mustangs were seven points behind at intermission. The two teams played on even terms during the second half with the visiting Mustangs pulling to within three points on several occasions. Ball control errors and fouls killed the Mustang hopes in the final two minutes of play.

Score:

| HEPPNER (51) | | SHERMAN (58) | |
|-----------------|-----|--------------|-------|
| Fr | Pt | Fr | Pt |
| Jacobs | 2 0 | 2 4 | |
| Pettyjohn | 1 0 | 3 2 | |
| Kilkenny | 0 2 | 1 2 | |
| Hoskins | 5 8 | 2 18 | |
| Doherty | 8 2 | 2 18 | |
| Stillman | 1 0 | 0 2 | |
| Hall | 0 5 | 2 5 | |

First Meeting Set For New Gun Club

A new senior gun club will be organized at lone on Wednesday, February 1, at a meeting in the American Legion hall at 7:30, according to Wayne Hams, who is organizing the club. The club, which will be affiliated with the National Rifle Association, is open to both men and women. It is hoped that it will interest members from the entire county. One of the first

Prospector Frosh Drop Heppner Five

By TIM SMITH

John Day easily handed Heppner's freshman squad its first defeat, 61-48, January 17 at Heppner. A combination of cold shooting and poor defense gave the game to the Prospectors early with the home-town quintet falling behind as much as 27 points in some parts of the game. The visitors showed skill far beyond their ages as they repeatedly showered the basket with difficult shots. Pat Kilkenny and Lee Huson were the bright spots on the home team as they both showed that they could work under pressure with 15 points poured in by Kilkenny and a 12-point output by Huson. These two also showed up well under the boards as Kilkenny pulled down 15 rebounds and Huson 10. Mike Hendrick shared game honors with Kilkenny as he also put in 15 points and Art Thunnel chipped in 13 for a second place. HEPPNER—McCabe 4, Kilkenny 15, Huson 12, Sweeney 5, Ayres 7, Murray 1, Lovgren 4, Wolf, Hedman, Pointer, Cox, Abrams, Bergstrom. JOHN DAY—Thunnel 13, Hancock 2, While 7, Hasher 5, Lisaman 8, Hendrick 15, Lenz 8, Callantine, Gohring, Johnson, Stout, Johns, McKinnis.

Heppner Jayvees Win at Sherman

By ROGER LEONNIG

The Heppner Jayvees dumped the Sherman Jayvees at Moro last Friday night by the score of 53-42. Dean Kindle and Larry Pettyjohn took home the game honors with 18 and 15 points respectively. Roger Knott, who also played for the Sherman varsity, led the Junior Huskies with 12, followed by Bob Byars with 10 points. As the first stanza came to an end it seemed like both teams would be evenly matched as the score was 12-12. But the Baby Mustangs pulled out to a 10-point lead as they left the floor for the half. From this point on the Heppnerites controlled the ball game fairly well as they were never threatened again. This was the third win for the Baby Mustangs in eleven outings. They have come up a long way on their season's progress.

objectives will be to set up a range, Hams said. Anyone interested is invited to attend the first meeting.

Heppner Girls Edge Pilot Rock

By TIM SMITH

Last second scoring gave the Heppner High powderpuff basketball team a 20-18 victory over Pilot Rock Monday night at Heppner. The jump-ball-studded, somewhat dull game proved to be a real cliff-hanger in the last quarter. It looked like certain defeat for the local girls' team as the last seconds were ticking off, but a free-throw by

Debbie Barnett and a basket by Kay Huson as the horn sounded, pulled the home team through. Kay Huson again took off with game honors with eight points, but Brenda Steagall and Edna Hartle proved valuable throughout the game. Heppner: Huson 8, B. Steagall 6, Hartle 3, Barnett 3. Pilot Rock: Christenson 4, Chapman 3, Etter 2, Roberts 2, Borrgrather 5, Bord 2.

MR. & MRS. HARRY MYERS

ELECTRICITY — Always Welcome

From wood range to modern electric appliances, that's the way life has been for Mr. and Mrs. Harry Myers of Condon, just recently moved into their all electric home at 831 S. Church St.

Reviewing the washboard to the modern automatic electric washer-dryer days, Mrs. Myers recalls the days when one "washed on Monday and ironed the rest of the week," and that's not exaggerating a bit. They had a special name for this kind of instrument, "sad iron" and just the thought of using them made one sad. (Sad irons were small blocks of iron that were heated on the stove and then used until they started to cool down). After a couple of hours of this, one became very sad about the whole job of ironing.

After the sad iron days came the days of the gas irons. This was really quite an improvement over the old sad iron, in that one didn't have to fight the heat of the stove during the hot part of the day. The gas iron wasn't too popular with some folks because they were afraid of it blowing up. "I wouldn't trade my electric iron for a train load of either of the other type," quipped Mrs. Myers.

The chore of washing has been simplified considerably with the newer automatic machines. Mrs. Myers' first machine was powered by a gas engine, and later converted to electricity when the line came in. Later an automatic electric washer and dryer replaced the older model.

All's well that ends well! Three years ago at the annual meeting of the Co-op, Mr. Myers won the door prize! A brand new electric dryer. Just to prove that it's not always a woman's world.

How Would You Spend \$370 Million To Make A Great Railroad Better?

Union Pacific is investing every dollar to improve its facilities and service to its shippers

COIN
Union Pacific's unique COMPLETE OPERATING INFORMATION NETWORK — Computerization, Data Processing, Inventory Control — immediate information on every conceivable function involved in operating one of the world's largest railroads.

ROLLING STOCK
1966-67 commitments add up to \$310 million — 14,700 new freight cars, 165 high-powered diesel electrics.

COMMUNICATIONS
U.P.'s radio network — 3400 miles long — one of the largest private microwave systems in the world. It provides 24-hour traffic control, better car routing and instant car locating service.

FREIGHT TRAFFIC SALESMEN
keeping shippers informed. U.P.'s continuous traffic training programs provide salesmen with current, vital information for every shipper.

RESEARCH AND DEVELOPMENT
Union Pacific's marketing team — chemists, technicians, engineers — formulate and develop new, advanced methods in all phases of railroad operation — transportation and natural resources.

INDUSTRIAL DEVELOPMENT
In 1966-67 alone, an estimated 500 industries will have located in U.P.'s booming West. Plant sites and industrial parks are constantly promoted in the 13 blue chip states of the U.P. West.
