

FHA Supports Loan-Grant Wish For Water Funds

By DONNA EPPENBACH

IRRIGON — Word was received this week from Congressman Al Ullman's office of primary approval by Farmers Home Administration of the City of Irrigon's application for loan-grant assistance for construction of a basic water system for the city.

The information jointly released by Congressman Ullman and Senator Wayne Morse, received by Mayor Wilson by telephone, indicates funds for the current fiscal year are depleted and final approval depends on congressional appropriations. Favorable action by congress would assure funds in the forthcoming July for the \$67,500 project which will include a drilled well, pump and control facilities, 5,000 gallon pneumatic tank, pumphouse and distribution system designed to serve all residences within the city who have indicated a desire for water service.

The grant-loan application to FHA is in the amount of \$62,700 of which \$26,700 is for a grant and \$36,000 for a loan the latter to be secured by revenue bonds and paid over a period of 40 years. The remaining \$4,800 of the \$67,500 will come from customer's service charges to cover costs of meter and hook up to property lines.

Mrs. Margaret Finney of Milton-Freewater visited Wednesday at the home of Mr. and Mrs. E. A. Stephens.

Tryouts Coming For Little League

Tryouts for Willow Creek Little League baseball will be April 22 and 29. Harley Sager, chairman for the sponsoring Jaycees, announces.

Boys who played last year for any of the four teams in the league and who are still eligible will not have to tryout, he said. Others who have just attained Little League age, or who are new to the area, or for other reasons are turning out for the first time should come to the tryouts.

They will be at 2 p.m. on each of the Saturdays at the Little League field at the fairgrounds.

All boys who will be nine years of age before August 1, 1967, or who will not be 13 before that date are eligible to play.

The four teams in the league are the Dodgers, sponsored by the Odd Fellows, with Dave McLeod as manager; the Giants sponsored by Kinzua Corporation, and managed by Tom Hughes last year; the Braves, sponsored by the Elks, with Al Boschee as manager; and the Indians of Ione-Lexington, sponsored by Morrow County Grain Growers, with Lindsay Kincaid as manager.

Boys of the Ione-Lexington area will tryout with the Indians, Sager said. Hughes does not wish to manage a team this summer, and the league is looking for someone to take the Giants, Sager said.

ATTENTION FARMERS:

Use just 4 Shell multi-purpose lubricants to keep your farm equipment in top running shape.

THERE ARE quite a few multi-purpose Shell lubricants. But the chances are that you'll only need four to cover practically all applications on your farm.

These lubricants can help you simplify maintenance and lower costs by keeping your inventory to a minimum.

Here's what they do:

1. Shell Rotella® T Oil 20W/40. A multi-grade, highly dispersant anti-wear motor oil. Suitable for year-round use in all engines except diesel engines requiring a Series 3 lubricant. (For these diesel engines, use Shell Rimula® Oil.)

2. Shell Spirax® EP multi-purpose gear lubricant for use in extreme pressure applications and conventional transmissions. Resists foaming and sludging. Can be used for

all conventional stick-shift transmissions and differentials.

3. Shell Donax® T oils for torque converters and hydraulic systems. Powerful anti-oxidant and dispersant materials help equipment stay free of sludge, lacquer and rust. Resists foaming, guards against deterioration of rubber seals.

4. Shell Darina® Grease AX or MP Grease. Both are top quality, multi-purpose greases. Darina AX contains Microgel® base instead of soap. So it won't melt even at high temperatures or under severe vibration. It effectively resists washing out of chassis and bearings. Shell MP Grease is conveniently packaged in 14½-oz. tubes for use with hand-held guns.
