

LATEST MODEL of the new RCA Whirlpool washer, now on display at Lott's Electric, attracts the attention of Mrs. Millie Evans, clerk in the store, and Patti Lott, 7, daughter of Mr. and Mrs. Randy Lott, owners of the store. Lott's Electric handles a full line of latest appliances that will brighten any home and make housekeeping easier and more convenient for any homemaker. (G-T Photo)

**Old Floor Polish Removed With Ease**

Have trouble removing polish from linoleum, vinyl and other floors? Some of the new products are not easily removed with the usual soap or detergent solution or with regular floor strippers.

These polishes are made with the idea of keeping a clean looking floor without

removing the polish during cleaning. But they can be removed with an acid solution while most other polishes require alkali such as detergent in the water. Check the information on the label. If you don't find the answer here, try vinegar in the cleaning water.

**Wallcovering Measure**

A roll of wallcovering, regardless of width, contains 36-square feet of area, according to the United Wallpaper Company of Chicago. However, because of trimming and matching, it is best to estimate 30 square feet of useful wall-covering per roll.
