

Leonard Cruson of Lyons visited with Mr. and Mrs. Wes Sherman on July 11, stopping as he was traveling through Heppner on a business trip. Cruson's son, now Lt. Mike Cruson of Ft. Lewis, Wn., and the Sherman's son, Dick, played together on Stayton High school's 1959 champion basketball team.

Accused Man Never Worked for Gas Co.

J. W. Everett, who was arrested recently on charges of obtaining money under false pretenses and who was returned to Colorado for prosecution on similar charges in that state, never was employed by Pacific Gas Transmission Co., according to Roger Thompson of Spokane, public relations representative for PGT.

Everett had worked in 1961 for the Western-Neill interests, contractors on the pipeline for Pacific Gas Transmission, Thompson explained. The man was well known in lone from the time he worked on the line in 1961, and thus, local business people there believed his story that the gas company planned to send a crew of some 200 men to lone to extend and repair lines. The story proved to be a hoax and Everett cashed drafts in the community which were without funds deposited to back them.

Thompson said that work on the new gas compressor station at lone is progressing on schedule. Paul Long is resident engineer on the project, rather than foreman as was erroneously reported in last week's Gazette-Times.

Metsker maps of Morrow, Gilliam, Umatilla, Wheeler counties on sale at the Gazette-Times.

Take Varied Vacation

Golfing was the main form of relaxation for Mr. and Mrs. Lowell Gribble and Mr. and Mrs. Eddie Gunderson as they enjoyed a vacation trip together from June 30 to July 8. They took the opportunity to play several golf courses in Oregon, California and Nevada, visited points of interest at Reno and Lake Tahoe, and enjoyed live shows featuring several of the movie and TV personalities. Mrs. Lucille Troedson of Dammasch hospital, near Portland, was here to take care of the Gunderson boys.

Director Makes Call For School Drummers

Arnie Hedman, Heppner band director, needs students from grade 7 through 12 who might be interested in playing the drums with the school band in the rodeo parade.

He asks anyone who is interested to report to the grade school band room on Monday, July 24, at 7:30 p.m.

Dr. and Mrs. Harold Huber and family returned July 11 from a driving and camping trip to Seattle, Victoria, Jasper and Banff. They came home by way of Glacier Park and Idaho. The family saw a great deal of wild life, including coyote, deer, elk, moose and bear.

Abrupt Stop Brings Injuries to Rider

Harold Shaffer, 25, suffered a fractured jaw, lacerations of the face and wrist and other injuries when he was thrown into a rock bluff Thursday night as he was attempting to control the runaway horse he was riding.

Shaffer, who is with the U. S. Forest Service here, rode the horse out of Linden Way after it had broken into a dead run. It came to the bluff and stopped, throwing the rider on to the rocks.

The ambulance was called, and he was taken to Pioneer Memorial hospital, later being transferred to Pendleton.

This was the third call on a busy night for the ambulance, the first being to the Case Apartments where Hanna Anderson, 73, was ill, suffering from severe chest pains. She was taken to the hospital here, and her condition Tuesday was listed as "fair."

Second call was to the swimming pool where Stuart Dick, lifeguard, had rescued Judy Devore, 17, from the pool. Story on this is elsewhere in this paper.

Vacation time was a pleasant one for Archie Alderman, who enjoyed a 10-day jet plane trip to the east. He returned last Tuesday night from a plane trip to Washington, D. C., where he visited his brother, Clayton Alderman, and family. Together, they drove to Galax, Va., where they visited their mother, Mrs. C. R. Alderman and were joined there by others in the family.

We're Ready to Serve You . . . For Seed Cleaning and Treating

- At our plant—25c bu., 50c sack, any amount
- At your ranch—with portable treater—30c bu., 60c sack, minimum of 400 bu.

Harold Erwin

Ph. 676-5806, Mornings or Evenings for Appointment
Heppner, Ore.

FARM SAFETY WEEK

CULTIVATE Good Safety Habits

Most farm accidents are preventable. Take the precaution of checking all farm machinery to see that it is operating safely. Remove accident hazards from your barn and other buildings. Keep alert, take care on every farming job . . . and instruct your help to do likewise!

OBSERVE THESE SAFETY RULES

- Keep children away from machinery, water tanks and the other hazardous places on your farm.
- Turn off the electric current when working on electrical conductors.
- Know first aid treatment for electric shock, cuts, breaks, sprains, and for drowning.
- Keep the farmyard clear of trash, sharp tools and forks.
- Avoid operating your tractor on dangerous inclines or near ditches and banks.
- Remove nails promptly from loose boards.
- Avoid wearing loose or torn clothing and ragged gloves around moving machinery.
- Keep up repairs on ladders and steps.
- Use only moisture-proof electric cords for circuits that are exposed to the weather or dampness.
- Keep guards on power machinery.
- Protect children from farm chemicals and insecticides.
- Impress young farm help with the need for safety—set a good example for them.
