The family center of every home is the kitchen. You'll find plenty of electrical servants to help do your work: electric range, oven and refrigerator.

Many Gold Medallion Homes also feature an electric dishwasher... food disposer... and other handy appliances that let the home-maker do more things for her family—and do them better!

Yet a Gold Medallion Home need not be expensive. The small cottage qualifies just as easily as the more expensive house.

Ask your rural electric about the Gold Medallion Standards. It'll pay you to do so... pay you in more comfort, greater convenience and better values for years to come!
