Library Requests Al Lamb Papers For Reference Use

The University of Oregon library has requested letters, speeches, notes, minutes, reports and publications from the personal files of the late Al Lamb to be used for reference. The requests were made to Mrs. Lamb, widow of the former mayor, and she has granted permission for their use in the library.

In a series of letters to Mrs. Lamb, Edward Kemp, acquisitions librarian, said that the library seeks to acquire the records, or copies, of those who have made substantial contributions to Northwest history. Lamb is so recognized for his work in agriculture and in public service. Kemp said that more than a million papers have been acquired from persons of prominence in the northwest and that they are valuable sources of reference material to students.

Mrs. Lamb is now seeking copies of letters and other papers that individuals, organizations or firms may have which were written by her husband. If it is desired to keep the originals, photostatic copies may be made to send to the library.

She was a guest at the Chamber of Commerce Monday, and President Herman Winter said that he felt this a great honor for the community. He asked cooperation of all present in turning over documents that may prove of value.

Lamb was mayor of Heppner, a former president of the Chamber of Commerce, was chairman of the county Democratic Central Committee, was campaign manager for Congressman Al Ullman, was a member of the county port commission, was manager of the Morrow County Grain Growers, and served on many boards and committees, even to the national level. He represented this county on a Department of Commerce Trade Mission to Africa in 1962 and met the famous Dr. Albert Schweitzer in Lamborene on that trip.

Anyone with documents which they believe may be of interest is asked to contact Mrs. Lamb by mail or in person. She has difficulty hearing on the telephone. If preferred, the information may be called to the Gazette-Times, and it will be relayed to Mrs. Lamb.
