## Dog Club Offers Proper Care Tips

The Dog-Gone 4-H club of Heppner, under the direction of Mrs. Norman Cow, has proclaimed the week of February 18-20 as Heppner Dog Week. Members of the club are giving tips on how to take proper care of your dog, and how to understand and enjoy him more.

The club held a baked foods sale Saturday morning, February 17, in front of the P. C. Penney store. Members presented dog demonstrations with their pets.

Members have written the following suggestions for dog care.

**Puppy Care**  
When you get a new pup take a box with newspaper to put him in. Feed him the same food he has been eating, and make a place just for him. At night put him in a box with a warm blanket and maybe a hotwater bottle and an alarm clock.

**Food**  
A dog should have fresh water all the time. He should be fed two or three times a day if he is a pup, and one or two times if he is an adult. Regular dog food is better for your dog than scraps from the table. Don't feed sharp bones to your pet.

**Origin of the Dog**  
Bear, cats, dogs, wolves, foxes, and coyotes came from one ancestor, a cat like animal called Miacis. Dogs became running animals with teeth for cutting and tearing. Dogs became social animals and man taught them to live with him and to hunt for him.

**Care**  
Your dog should have lots of love and attention. He should be brushed almost every day, and should have a bed of his own, and lots of play and fresh air.

**A Good Dog Neighbor**  
Your dog should not run in other people's yards, and he shouldn't be allowed to bark or chase cars and cats.

**Dog Health Tips**  
Be sure not to overfeed your dog. Keep him free of fleas, ticks, and worms. Check often for weed seeds in his coat, ears, and feet. Be sure he has his shots at three months of age and take him to a veterinarian immediately if an accident or illness occurs.

**Mixed Breed or Purebred**  
Take into consideration: why you want a dog, how much you want to spend, is the dog right for your family, and the place where the dog is to be kept.

**Dog Obedience**  
Training a dog is an exciting experience for both the dog and master. There are seven main things that you should teach your dog. They are to heel, stay, sit, long sit, long down, come on call, and stand. Remember, a trained dog makes life happier for everyone!

**Cook Over Open Fire**  
The Biscuit Burners held their last meeting on Saturday morning. We worked on our records then went up in the desert and made twists, which are canned biscuits wrapped around a green stick and cooked over hot coals. We also wrapped biscuits around wieners. We baked "Fruit Kabobs," but they didn't turn out too good, everybody liked them better unbaked. At our next meeting we are going to make "No-bake cookies."

**Cool Cookers Elect**  
The Cool Cookers is a 4-H project one and two cooking club. We had our first meeting February 7 at the home of Mrs. Grace Steers. We elected our officers. They are Wendy Phegley, president; Toni Toll, vice president; Susan Wishart, secretary; Bonnie Davis, treasurer, and Nola Steers, news reporter. We also discussed our finances and planned future meetings and what we will cook.

## Ullman Bill Seeks Estate Tax Relief

Congressman Al Ullman (D-Ore.) has introduced legislation to prevent loss of a family farm, ranch, or small business because of high federal estate tax valuations.

Present regulations of the Internal Revenue Service appraise property passed in an estate at the "fair market value at the owner's death." Often these values are inflated because of land speculation in the surrounding area, Ullman explained.

Ullman's bill would permit a family to choose instead to have the estate valued on the basis of its "reasonable earning power."

"Under existing law, small businesses, ranches, and farms

which had been in families for many years must be broken up or sold off to pay estate taxes when the father dies," Ullman said.

To qualify for the new tax treatment, the bill provides that the decedent must have been in the business for ten years prior to his death, and the heirs would have to continue the business for five years after the death.

The Oregon Democrat's legislation is supported by the American National Cattlemen's association and other farm associations. Ullman is a member of the House Ways and Means Committee which considers tax legislation.

## Waltz thru Wash Day with an All-Electric Laundry

An all-electric laundry really does much more than wash and dry your family's clothes. It also lets you do it at your leisure; you pick the time most convenient to your busy schedule.

For example, why worry about a little rain? An electric clothes dryer lets you forget about the weather. Let it rain... let it snow... you can dry your wash any time!

trols for the desired cycle; it automatically turns off when your wash is dry.

An electric clothes dryer is safe for all fabrics. A little care is all that's needed to protect the most delicate synthetics. Just wash and dry separately from the rest of your laundry. There are special controls on both your electric washer and clothes dryer to gently care for dainty garments.

And there's no panic when you discover late at night that Billy has no clean trousers for school tomorrow... or that Mary must wear her special dress. They're clean in minutes in your automatic clothes washer. Pop them in your electric clothes dryer before you retire for the night. Everything will be fluffy dry in the morning.

Yet an electric clothes dryer is as safe as a light bulb. That's because it's flameless. Just set the con-

An all-electric laundry saves money, particularly for families with children who seem to "grow out of their clothes." Fewer changes are needed because the youngster's clothing can be washed and dried so easily. Children can, therefore, "grow through" instead of "out of" garments.

Small wonder that an electric clothes dryer is a woman's most wanted appliance!
