Budget Includes Water Projects

By FRANCES ROSE WILSON

IRRIGON — A public hearing was held by the City Council on April 9 on the budget for the city for 1968-1969. The budget was adopted as it had been approved by the Committee in the amount of \$85,105.00 for requirements. Anticipated resources were in the amount of \$83,603.00 except taxes which were authorized to be levied in the amount of \$1,502.00 to balance the budget. These are within the 6% and no election will be necessary.

The budget also included the amount of \$71,920.00 for development and operation of the proposed water system which, it is hoped will be constructed within the coming year.

Other business conducted in the April meeting of the Council included instruction to Attorney Morrison to petition the O.W.R. & N and U. P. railroads for a grade crossing across their property at 10th street. Development of the new park and marina along the river will require this as access into the area will be at 10th Street only. Other streets into the park will be blocked off.

Final approval was received from the State Highway Department for development of a beautification program along the right-of-way from Third to Twelfth Streets. It had been proposed that trees and shrubs would be planted along the railroad fence. However the matter was tabled by the Council until inquiry could be made as to the possibility of having the fence and tracks removed to Twelfth Street. No planting will be done this year because of the advanced season.

Need for an easement through Lot 36 of Block 25 was discussed and since this lies in a natural line for continuation of Oregon Avenue from Ninth to Tenth Streets, it was decided purchase of this lot would be the logical solution. Mayor Wilson was authorized to make inquiry of the owners as to willingness to sell. It will be necessary to acquire one more lot East of 36 in order to have a through street here.

Mr. and Mrs. Orlin Huston have returned from spending two weeks visiting Mr. and Mrs. Donald Cross in Clackamas. Huston, retired, spent much of the time fishing with Cross and a son, Lionel Huston, on the Willamette River, and reports much success, as the party caught 13 Chinook salmon, ranging from seven to 34 pounds, with many of the big fish weighing 20-22 pounds. The largest fish, a 34-pounder, was described as being a bit hard to land. Huston reports that it took about a half-hour battle to get it in the boat. He also said that the river is extremely busy on week-ends, with as many as 2000 boats out.
