3. HIGHER EDUCATION AND COMMUNITY COLLEGE BONDS—Purpose: Proposes amendment to Article XI-G, Oregon Constitution. Establishes new bonding limitation for higher education and community college educational and general purpose building programs at amount equal to three-fourths of one percent of true cash value of taxable property in state. Restricts bond issues in any biennium to amount of matching legislative appropriation. Authorizes financing of higher education building programs from combined sources. Prohibits using Article XI-G bond proceeds for wholly self-liquidating and self-sustaining programs.

ESTIMATE OF FINANCIAL EFFECTS: This amendment to Article XI-G would increase the bonding limit for Higher Education and Community College educational and general purpose building programs from $30 million to approximately $113 million. Total bonding limit would vary in the future as the true cash value of taxable property in the state changes.

If all the proposed new bonding capacity were used, the average annual principal and interest payments would increase by approximately $5 million. The actual payments would be limited by the amount of bonds authorized by the legislature. The 1967 Special Legislative Session approved issuing $9.35 million in bonds out of the increased bonding limit to be established by this measure. Average principal and interest payments in the next thirty years to retire these bonds will be approximately $560,000 per year.

Illness Claims Former Resident

By MARY LEE MARLOW
(Held over from last week)

BOARDMAN — Funeral services were held April 29 in Whittier, Calif., for George E. Mefford, 74, brother of Mrs. Lee Root of Boardman, who died there April 24 after a long illness. He was a former resident of Boardman, having lived here some 50 years ago. He came here in 1918 and left about three years later. For the past 30 years he has lived in Burns. He went to Whittier last August to live with his daughter, Mrs. Jim Ellis. For over 30 years he was associated with the Gideons, International, and had distributed many of their bibles around the country.

Besides Mrs. Root and his daughter, he is survived by his wife Lola of Whittier, one son, Harrison of Salem, four grandchildren and nine great-grandchildren; four brothers, Arthur and Russell of Portland, Albert of Salem, Alvie of Pasadena, Calif.; and four more sisters, Mrs. Ed Barlow (Sophia) of Riverside, Calif., Mrs. Harvey (Evelyn) Ide of Marina, Calif., Mrs. Max (Loye) Deweese of Grandview, Wash., and Mrs. Al (Ida) Macomber of Arlington. Mrs. Root spent several months in Whittier with her brother this past winter.

Oregon Wheat Crop Would Fill Train Many Miles Long

If the total of this year's Oregon wheat crop were loaded into boxcars on a single train, the mythical train would stretch from Portland to Seattle. According to the Agri-Business Council, the contents of this 175 mile long train would be worth over $53 million.

Although the wheat crop is expected to be down from last year's yield, total production will be about 29.6 million bushels. This wheat is grown on 1,018,000 acres.

Oregon's wheat crop is used primarily for pastry items. Agri-Business Council notes that a dozen donuts cost about 60 cents at the retail level. One bushel of wheat will make approximately 82 dozen donuts, with a retail value of $50.

If prices are good for the farmer, he will receive from $1.75 to $1.80 for this bushel of wheat.
