Check this choice of Checking accounts

Different people have different money management needs. That's why First National offers a choice of checking accounts for favorite customers.*

✓ **The Regular Checking account** is for you if you write a "regular" number of checks every month. You pay a nominal fee for the service and the checks written. The service charge varies with the amount of money in your account. And you receive a detailed statement each month.

You can choose from a colorful array of checkbook covers to complement your purse or pocket. There is a choice of custom-designed checks imprinted with your name and address. (Some are free; the fancier ones at low cost.)

✓ **The Low Cost Checking account** is just the thing for the student in the picture—or a housewife's budget account. It's for you if you write relatively few checks per month. You pay only 12¢ for each personalized check written. If you write five checks the cost is 60¢. If you write zero checks the cost is zero.

✓ **Record-Rite account.** With Record-Rite checks you write a duplicate as you write the check itself, by means of a patented "carbon" copy process. It's easy, non-messy, and provides you with an instant record of each check you write. Put the copy in your checkbook and record it in your check register later, if you wish.

✓ **A Custom Credit account** provides automatic credit through your checking account. Once on the custom credit plan, you can write your own loan. Repayment is handled through BankAmericard billing.

✓ **A Save-O-Matic account** offers a system of saving through your checking account. Each month an agreed-upon amount is automatically transferred from your checking to your savings account. It's a great way to make a monthly payment to yourself. No charge for the service!

And, you can arrange to make personal loan payments or insurance payments automatic through your checking account. Again, no charge.

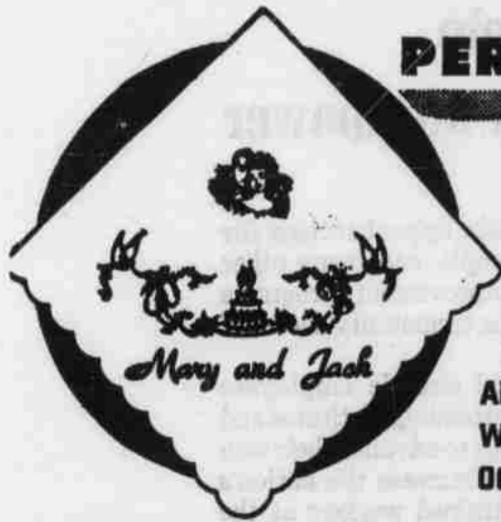

Convenient? Yes. All banks offer the convenience of a checking account. First National offers convenience and choice. Good reasons why more Oregonians have checking accounts with First National than with any other bank.
