Jaycee Wives To Take Census

Morrow County Jaycee Wives met recently at the school district office in Lexington where they made final plans to assist the school district with the 1968 Morrow county school census.

Members will call on residents living in Heppner, Lexington and on surrounding bus routes. Parents will be asked to fill out the census forms, listing all children in the family from the youngest through age 20.

Families living on rural bus routes will be contacted either in person for the information, or will receive their forms in the mail, along with a self-addressed stamped envelope. Families are urged to return the completed forms promptly to the Jaycee Wives organization, as the deadline for turning in the census information to the school district office is November 1.

Residents in Irrigon, Boardman and Ione will be contacted also, but by other organizations.

Project is under the direction of Mrs. Bruce Rigby, chairman. A school census is taken every two years and the count in 1966 showed there were approximately 1439 school age children in Morrow county, 713 boys and 726 girls.

Employers to Get Dividend Checks

Mailing of almost \$5 million in workmen's compensation dividend checks paid by the State Compensation Department has started.

A total of \$57,920 will be distributed to 610 employers in Umatilla county. Checks worth \$19,892 will go to 134 Grant county employers; \$6,749 to 78 employers in Morrow county; \$3,585 to 61 Gilliam county employers; and 16 Wheeler county employers will share \$637.

Some dividend checks will be delivered by representatives of the State Compensation Department's Pendleton office, headed by Ed Redman, manager.

Charles B. Gill, Jr., general manager of the State Compensation Department, said over 25,000 Oregon employers are scheduled for dividends.

To be eligible for the dividend, Gill said, an employer must have been insured with the State Compensation Department during the 1966-67 fiscal year.

Checks range from a high of \$95,277 to a low of \$5. The total dividend is approximately 16.7 percent of earned premiums.

This is the third consecutive year that dividends have been paid to Oregon employers since the workmen's compensation law was changed by the 1965 Legislature.

Gill pointed out that low administrative costs, high investment yields and favorable loss ratios are the main reasons for the huge dividend.

Get Ready to Enjoy Winter; Install Electric Heat Now!

Your family will enjoy a whole new world of winter comfort and convenience when you install Electric Heat.

And you'll be amazed how little it costs. Installation costs are low when you heat by wire because there are no expensive ducts or chimneys. Monthly heating bills are lower than for most old-fashioned heating systems.

But the biggest advantage of Electric Heat is comfort! It provides a steady, even heat; there are no "hot" or "cold" spots. You regulate the heat to the "just right" temperature for every room.

Most folks, for example, prefer bedrooms a little cooler than the living quarters. No problem with Electric Heat. Just set the thermostat to the most comfortable level; you'll be cozy warm all winter long.

Of course, every home-maker is pleased with the cleanliness of Electric Heat. There are no oily films or streaked walls. Curtains and drapes stay clean and fresh longer. Electric Heat greatly reduces the time normally required for dusting and cleaning.

You'll save maintenance costs, too. There are few moving parts to oil (or wear out). No fires to build. Just set the thermostat and forget it.

Ask your rural electric cooperative for free information about Electric Heat. They'll gladly study your particular problem and make accurate estimates of your heating costs if you install Electric Heat.
