SEASON'S BEST

STEWARDSHIP

NO MAN HAS YET REVEALED LIFE'S MYSTIC FOUNT NOR FIGURED OUT THE DEBT TO WHOSE ACCOUNT COULD LIFE BE JUST A LOAN, FOR WHICH THERE MUST BE STEWARDSHIP BASED ON A SACRED TRUST? AND SURELY THERE MIGHT BE SOME HONEST PLAN FOR US TO JUSTIFY THE NAME OF MAN THE REASONING EXISTENCE ON THIS EARTH

TO PROVE, BY HOW WE HANDLE LIFE, OUR WORTH, NOT JUST THE CONSCIOUS LIFE WE CALL OUR OWN, BUT OTHERS IN WHOSE COMPANY WE'RE THROWN; TO NEVER WILLFULLY BETRAY OR HURT THE LEAST OF THESE, NOR THOUGHTLESSLY PERVERT A LESSER LIFE BY NEEDLESS SUFFERING.

THINK YOU THERE ALSO MAY BE SUCH A THING AS STEWARDSHIP FOR LIVES WITHIN OUR CARE — THE ANIMALS AND CREATURES OF THE AIR? THE GOLDEN RULE APPLIES TO ALL OR NONE: DO UNTO OTHERS AS YOU WOULD BE DONE. IN FACT I'D JUST AS SOON PLUNGE DEEP A KNIFE INTO MY BABE AS MAMM SOME CREATURE'S LIFE!

KILL IF YOU MUST, BUT DON'T FOR MERCY'S SAKE INFLICT SHEER TORTURE ON THE LIFE YOU TAKE.

Tips Give Secret Of Keeping Tree Fresh, Healthy

Keeping your Christmas tree looking fresh and healthy is not hard if you know how. The big secret is to see the tree gets plenty of water. One easy way to do this is to mount the tree in a bucket filled near the top with water. Use rocks to hold the tree upright. You'll have to watch the water level. A tree takes up water more quickly than most people think.

The butt of the tree should be re-cut just before you put it into the water for best results since the original cut tends to seal itself off rather quickly. You can also improve the water absorption by cutting the trunk at an angle to expose more absorbing surface to the water.

Naturally the tree should be put away from any heat sources which would dry it out. A tree can become quite dry before it shows any signs of wilting, and in this condition becomes a serious fire hazard. Keeping the tree well watered will keep hazard to a minimum.

Safety dictates a careful examination of light string wiring for frayed or broken spots. The lights should never be on unless someone is awake in the house. A fire in the home is a sad adjunct to the Christmas holidays.

Joyous Noel...
