Injunction Hearing **On Fees Scheduled**

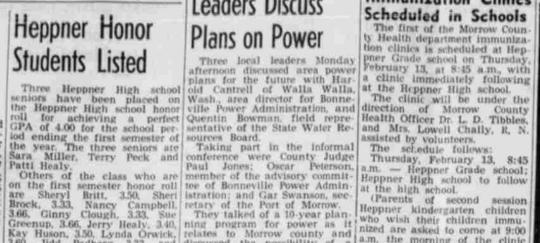

Ned Clark, president of the Morrow County Livestock Grow-ers association, said Monday that he has received information that a Federal judge has set a hearng for February 17 on the American National Cattlemen's association suit for an injunction on the new grazing fee schedule.

The information came from Donald Ostensoe, executive vice president of the Oregon Cattlemen's association, who received a telegram to that effect from C. W. McMillan of the ANCA.

The judge also set a morator-ium on the 1969 grazing fee bills, the telegram stated. Clark was advised to inform

Modern Home Makers Cook Better in a Total-Electric KITCHEN OF CONVENIENCE

There's a modern twist to old-fashioned cookin' ... those wonderful electric appliances which let the home-maker do more things ... better ... and

automatic timing devices which "watch" the meal while you are doing other things with your family! And very importantly, an electric range is safe because it's flameless. That makes it cleaner, too.

Think of all the other wonderful electrical appliances that make the home-maker's day easier and more efficient. Dishwashers take the drudgery out of that unpleasant chore . . . today's models hold all the dishes and utensils for family-size meals. An electric disposer unit enables you to "wash" the majority of your kitchen garbage down the drain.

Kitchen Convenience

Electric appliances make it simple to prepare special treats. Mixers are in daily use for a wide assortment of jobs from preparing your favorite cake to whipping potatoes. Tired of trying to cut meats with a dull knife? Try an electric knife sharpener or an electric knife . . . you'll soon be using it every day. An electric toaster? Why, does anyone still burn toast by using the oven?

Add all those wonderful electrical appliances together and you'll understand why you live better, thanks to low-cost rural electric power.
