**Keith Injured in Road Wreck**

**By FRANCES ROSE WILSON**

IRRIGON — James Keith, Jr., was hospitalized at the Good Shepherd hospital in Hermiston after an accident near John Day dam, when a huge rock rolled in front of his car. The accident occurred early last Thursday morning as he was returning from Troutdale, where he is employed. He was wearing his seat belt which, state police say, probably saved his life. Injury was to his face and jaw, with five broken teeth, and he also sustained two broken ribs. The car was totally demolished.

Rees Morgan was dismissed from the Umatilla hospital recently after undergoing surgery. He is recuperating at home.

Mr. and Mrs. Edwin Wilson are parents of a son born February 14. He weighed 5 lb. at birth, was 17 1/2 inches in length, and was named Adam Eugene. Grandparents are Mr. and Mrs. Charles Wilson, Irrigon, and Mr. and Mrs. Dwight Monroe, Union Lake, Mich.

Foremost in business by the City Council in the February meeting was adoption of a resolution for vacation of the North-South alley in Block 36, which lies between 3rd and 4th Streets South of Oregon Avenue. A hearing will be held March 11 prior to final action.

A request by Mr. Abel to rent the city's service building, the former Chevron service station, for use as a shop for mechanical work and service station, was discussed. No decision was made as some members were absent from the council and the matter will be taken up in the March meeting. Mayor Wilson pointed out some of the problems that could arise in leasing the city owned property.

Other items on the agenda included granting request for purchase of a typewriter and filing cabinet for use by the recorder; adoption of a resolution initiating steps toward annexing of the 150-foot strip of property lying between 1st and 2nd Streets, from the river to California Avenue (and including 1st Street itself) into the city. The adopted resolution, along with

**SKIDDING FOR SAFETY**

**TENNESSEE SKID TEST TRAILER**  
 —one of the devices used by the National Safety Council's Committee on Winter Driving Hazards during its annual winter test project to measure the stopping ability of various types of tires, chains and other equipment.

These findings point up the extreme hazard of driving on glare ice—showing that with regular tires it may take close to nine times as far to stop as on dry pavement. The Safe Winter Driving League cautions drivers that regardless of the type of traction device employed—even with tire chains—far slower than normal speeds are essential on icy pavements.
