**Residents Getting
\$55,000 Monthly
Social Security**

A record \$55,000 in monthly social security benefits was being paid to residents of Morrow county at the end of December, 1968, an increase of 13 percent above the amount payable at the end of December, 1967, according to Vernon A. Welo, manager for Social Security.

By the end of May, 1969, social security will be paying monthly benefits to more than 25 million people—1 out of every 8 Americans, and in Morrow county, 1 out of every 7. Although retired workers comprise the largest group of beneficiaries, almost one-fourth of all people receiving benefits are under 60. There are currently more than 3.8 million children and 5 million widowed mothers receiving payments. Yet the public continues to think of social security as a program for old people.

In Morrow county, 86 people under 60 are receiving benefits. That figure breaks down into 44 under 18, 11 between 18-21, and 31 between 22-59.

Many students are able to continue their education because of the 1965 amendments to the Social Security Act which extended survivors and dependents insurance benefits to students until their 22nd birthdays. In 1968, that provision resulted in continuing benefits for 470,000 students.

Monthly payments to the family of a worker who dies leaving a widow and two or more children range from \$82.50 to \$434.40 a month, depending on the worker's average earnings under social security. Payments to the young family of a worker who dies at an early age could total as much as \$85,000 to \$100,000.

Welo also pointed out that by the end of 1968, approximately 90 percent of Americans 65 and over were either receiving cash benefits or would have been eligible for such benefits if they or their spouses had not been working.

In terms of Medicare, almost all people in the country 65 or over are eligible for hospital insurance benefits. Likewise, 95 percent of all older persons in the country have elected coverage under the voluntary supplementary medical insurance plan which pays physicians' fees.

**New Record Set
In Number Aided
By Salvation Army**

Salvation Army Week, observed this year across the nation from May 12 to 18, was a time of particular celebration in the Oregon-Idaho Division where a new record of service was achieved during the past year.

Ted Smith, chairman, Morrow county, reported that all told a record number of men, women and children, over 430,000, were helped through various 'Army' facilities and organizations last year, according to figures just completed this week.

Among the services was care for over 500 unwed mothers at the Salvation Army's White Shield Home in Portland and Booth Memorial Home in Boise, with a total of 28,529 days' care for mothers and babes at a cost of just under \$300,000. Both these facilities have been expanded this year so that the total will be considerably higher for coming months.

At the military induction centers in Boise and Portland, where all young men and women being sworn into all branches of the armed forces leave for their initial service, the Salvation Army has presented over 12,432 gift packs of toiletry articles, along with a warm send-off.

The severe winter weather pushed to new limits the facilities for caring for homeless men, with a record level of 44,000 days' care for men being helped through The Salvation Army Harbor Light and Men's Social Service Centers during the past year.

Youth activities at Corps and Red Shield Centers also reached new levels, with 287,882 participating.

Also setting new records were the numbers helped at Christmas, a total of 37,838, with 2200 homeless persons guests of The Salvation Army at festive Thanksgiving and Christmas dinners. Those at home, where illness or unemployment would have prevented getting the groceries for a holiday dinner, were helped to have the foods for such a meal.

Another service virtually unseen by the public is the extensive visitation program which brings a welcome visit and sometimes a small gift or other favor to the sick and shut-ins, both in hospitals and in the homes of the ailing. Last year, such visits totalled over 49,866.

Mr. and Mrs. Clayton Sweek and family were called to Medford last week by the death of her step father, Bruce Fleming, who passed away on Wednesday, May 21, following a short illness. Funeral services were held on Friday, May 23, in Medford. Enroute home the couple visited in Eugene with friends and relatives before returning home on Sunday.
