JUNE 15th BELONGS TO... Father

If you're giving him a watch for Father's Day make sure it doesn't tick

ACCUTRON CALENDAR "A" Stainless steel, water resistant. Applied markers on a black dial. Luminous. \$150.00

ACCUTRON CALENDAR "B" 14k gold filled, water resistant. Gilt applied numerals on a silver background dial. \$175.00

Bulova left out of Accutron the parts that make a watch run fast or slow.

The Accutron timepiece has no balance wheel, no mainspring, no hairspring. (Therefore no tick.) Instead it has a tiny, electronically-powered tuning fork. (That's what does the humming.)

The tuning fork splits a second into 360 equal parts. The best a ticking watch can do is divide a second into 5 or 10 parts.

Accutron time is so nearly perfect that Bulova guarantees monthly accuracy to within 60 seconds.*

It's a particularly good gift for the graduate who has everything except the right time of day.

ACCUTRON® by BULOVA It goes hm-m-m-m.

*We will adjust timekeeping to this tolerance, if necessary. Guarantee is for one full year.
