

WE'RE NOT WELL DRILLERS.

... But We Keep Wells in Three Counties Pumping Day and Night, Bringing Water for Homes and Irrigation in Morrow, Gilliam and Wheeler Counties.

When a Rancher has a system like this, he wants to use it to best advantage. Columbia Basin is ready to supply low-cost Electricity to the well site to keep that pump working. And we keep the supply coming, so Morrow County Farmers can rely on it.

If You Have The Water, We Have The Electricity.

Columbia Basin Electric Co-op
