Ag Income Up 9% Over 1968 In Morrow County
Harold E. Kerr, County Extension agent has completed the 1968 Ag income picture for Morrow County. The total income is up 9% over last year and is estimated to be \$11,100,000. This is compared to a very poor crop year in 1968. Yields of wheat and barley were up, but were offset by lower prices and more importantly by higher costs.
Cattle prices were up but were offset mostly by lower culling percentages and lighter weaning weights. Wheat is the largest income producing commodity at 3.3 million dollars followed closely by beef at 2.8 million.
The increased income to the farmer was more than offset by rising costs. Figures released by OSU show that costs have increased 36% since 1959 while income has increased only 22% for Oregon farmers.

WEDDING, PARTY and ANNIVERSARY napkins with names imprinted; monogrammed playing cards; wedding invitations and announcements, all available at The Gazette-Times.
