

CRESTON ROBINSON joins the Turtle Club and receives a new hard hat from Dick Sargeant at a Kinzua-Heppner Safety meeting Tuesday afternoon.

Creston Robinson is Turtle Club Member

The first one to become a member of the Turtle Club in Heppner was Creston Robinson. He was entitled to become a member when he was injured by a flying board last Dec. 11. Because he was wearing a hard hat the injury was not as serious as it could have been. The hat he was wearing was dented and the inner lining was broken loose.

His new hard hat has a stencil of a turtle wearing a hard

hat. His lapel pin is a tiny turtle also wearing the familiar hard hat. Some of his fellow workers wondered why he didn't get Green Stamps, too!

Following the presentation, Mr. Sargeant demonstrated the uses of a triangular bandage as a sling and cravat. The men practiced the uses of the triangular bandage in case of a broken arm when the joints must be immobilized.

HARLEY SAGER, manager of the Heppner Branch, First National is presented with the Outstanding Farm Loan Correspondents award of the Equitable Life Assurance Society for 1969.

Heppner Branch Wins Loan Award

The Heppner Branch of the First National Bank of Oregon was again selected as one of the outstanding Farm Loan Correspondents of the Equitable Life Assurance Society during 1969. It had been selected previously in 1967, also.

Award was presented to Harley Sager, manager of the Heppner Branch by Wm. M. Kletzer, Farm Loan Appraiser, who services Eastern Oregon for Equitable.

Equitable Life Assurance Society has assisted many branches of the First National Bank of Oregon including Heppner, Pendleton, La Grande, Enter-

prise, John Day, Condon, and Sherman County branches. Its investment in farm ranch, and timber land loans in the United States was \$774 million at the end of 1969. Even though tight money and upward pressures continue to characterize the credit markets into 1970, Equitable has assured the First National Bank that it will continue to have money for farm, ranch, and timber loans through 1970, at as reasonable rates as possible.

CHUCK WAGON

The Morrow County Gem and Mineral club will have a demonstration of rock drilling at 7:30 p.m. Saturday next to the Heppner Auto Parts.

We saw Nancy Doherty, her sister and mother in Eugene last week. Nancy is going to have a long and painful time as a result of the car accident. However, she's a very plucky gal and is determined to get around. You just can't beat folks like that.

We understand Steve Pettyjohn is staying at the infirmary at Oregon State, but is attending engineering classes again, located next door. We wish these young folks well.

New Camaro. Feb. 26th.

We've never announced a car at this time before.
But then nobody's ever announced a car like this before.

Super Hugger

If it were an ordinary sportster, we'd have introduced it at the ordinary time.

Instead, we took the time to build a whole new Camaro.

We started with a sleek new shape and a low road-hugging stance.

And added more hood. A faster fastback. Wider doors. And new deeply contoured bucket seats.

The instrument panel wraps around you. With enough dials to make you think you're piloting a 747.

There are four transmissions. And six power plants up to the Turbo-Jet 396 V8 that you can order.

Pick the one that best suits your driving. Then go pick on an open road.

And make it one with plenty of twisting turns. Because Camaro has a remarkable new suspension. And standard front disc brakes for a leech-like grip on the road.

New Camaro. The Super Hugger.

Other sportsters always feared it might come to this.

And they were right. Only their timing was wrong.

Putting you first, keeps us first.
