Garden Club Convention

Final plans were made for the spring convention of the Blue Mountain District of Garden Clubs to be held at the Greenfield Grange hall in Boardman April 15, starting at 9 a.m. The Boardman Garden Club will host the affair, and met Monday night of last week at the home of Mrs. Frank Marlow for their final planning. Guests at the meeting were Mrs. Charles Dallas of Pendleton, district chairman, and Mrs. Don Fonda of Pendleton, district publicity chairman. Roll call was answered by telling something about St. Patrick's Day.

Mrs. Dallas announced that the state convention would be held in Bend at the high school June 16-18. The guest arranger will be the incoming president from California.

Mrs. Dallas also spoke of donations being received for victims of Hurricane Camille in Mississippi.

Election of officers will be held at the next meeting to be held at the home of Mrs. Roy Ball April 20.

Mrs. Dallas and Mrs. Ralph Earwood won the prizes in a game. Mrs. Glen Carpenter received the door prize.

Mrs. Dave Hanway was appointed as a helper to assist Mrs. Don Baker and Mrs. John Phillips with the junior game.

New U. S. Wheat Sales Record to Japan

A new sales record of U. S. wheat to Japan for their fiscal year (March 1969-April 1970) was made when the Food Agency of the Ministry of Agriculture and Forestry concluded their foreign wheat purchases for the year on March 11.

On a purchase basis the new record is 2,248,287 metric tons (82,602,064 bu.) of U. S. wheat, which tops the 1967-68 fiscal year record of 2,129,460 metric tons (78,236,360 bu.) by a margin of 118,827 metric tons (4,365,704 bu.).

Compared with last year the increase is a whopping 605,579 metric tons (22,248,972 bu.). Last year's low total of 1,642,708 metric tons (60,353,092 bu.) was the result of the Food Agency's purchase halt of over two months because of the amylose problem.

Western Wheat Associates executive vice president Richard K. Baum and WWA board member from Nebraska, Ervain Friehe were in Tokyo when the final purchases were made for the fiscal year. Both visited the Director General of the Food Agency Osamu Morimoto and Deputy Director General Tsuginobu Baba the following day to express appreciation for the record purchases of U. S. wheat. Morimoto remarked that it was due to the fine service and cooperative effort of the U. S. wheat industry and particularly the growers as represented by Wheat Associates in Tokyo.

To the above figures for this fiscal year would be added the free wheat purchases made by the flour mills of U. S. wheat. The flour mills are allowed to make direct wheat purchases in the amount of flour they export. With the free wheat purchase figure added to the Food Agency purchases, the U. S. total will be close to 2,300,000 metric tons (84,502,000 bu.).

Based on the Food Agency purchases, the percentage increase is 5 1/2% over the previous record fiscal year (March 1967-April 1968), and almost 36.9% increase over the last Japanese fiscal year.
