Chamber Hears About 'SOLV' At Noon Luncheon

Vice President Ed Dick presided at Monday's Heppner-Morrow County Chamber of Commerce luncheon at the Waggoner Wheel. He introduced Frank Quinlan, executive secretary-treasurer of SOLV.

SOLV was started by a group of Oregon business people to STOP OREGON LITTER and VANDALISM. Purpose is simply to Make Oregon Attractive. Oregon's fame as a scenic state is world wide.

Mr. Quinlan said if the outdoors is kept clean, it will probably remain clean. They urge the use of litter bags and will distribute thousands of them in a campaign. He said we must police ourselves and each county should be responsible for itself. This was brought out last spring here on Earth Day when young folks showed slides of eyesores in this area and other areas of the county. School children, 4-H'ers and others gathered bottles and debris to make a cleaner Morrow County.

After Mr. Quinlan's talk, the meeting was adjourned and a discussion followed as a prelude to organizing a local SOLV group. It was decided to devote the Aug. 3 Chamber meeting to organizing the group here with broad based support from other organizations in the county. Representatives were present from the Ione Garden Club (Mrs. Fredrick Martin and Mrs. Garland Swanson), Forrie Burkenbine represented the Jaycees, Mayor Bill Collins the City of Heppner, Jack Van Winkle the County Court, Jim Driscoll, the American Legion.

Orville Cutsforth related the difficulty in getting litter barrels and gunny sacks emptied. This was described as a problem in communications. The Forest Service is responsible for the job in some areas, the State Highway Commission in others. Mr. Quinlan says this is something SOLV may help settle.

Youth Rally Features Film, 'Beloved Enemy'

'Beloved Enemy', winner of the National Evangelical Film Foundation award as the best evangelistic film of the year, will be shown at the Heppner Church of the Nazarene on July 26 at 7:30 p.m.

'Sweeping from the ski slopes of Northern Michigan to guerrilla infested jungles of the tropics, "Beloved Enemy" tells the dramatic story of a young space-age scientist who is rejected by the girl he loves because of his unbelief. Embittered, he sets out to disprove the deity of Christ through a careful and honest investigation of the accuracy of the Gospels and the massive evidence for the physical resurrection of Jesus Christ.

Convinced of the truth of the Bible, Mark, played by Tony Moccus, follows Lynn, played by Flo Price, a well-known Christian musician, to the jungles of Latin America where both are trapped in a political upheaval. Their escape from a communist concentration camp and headlong flight to escape the bullets of the guerrillas provided many moments of excitement and suspense.

While this Zone Rally has the support of the following Nazarene Churches from Arlington, Hermiston, Pendleton and Pilot Rock, we wish to invite anyone from the Heppner Community to attend this presentation of "Beloved Enemy".

camp this week, she is attending Cheer Leader School on the Lewis and Clark campus. This is her third year to attend and she was excited about going again. The day is filled with many things to do which begins with getting up at 6 o'clock in the morning. Breakfast is followed by a half an hour of brisk calisthenics.

They learn four new yells each morning. Lectures follow luncheon. This includes techniques in controlling crowds. Then there's some free time which the girls usually spend practicing their yells.

There's competition every night. The group showing the most enthusiasm gets the "spirit Stick". The Riverside girls won it one night last year as well as a number of ribbons. If there's a school that wins it two times out of the three nights, they get to take it home.

Four girls are going from Riverside. The school pays \$25 and the individuals pay \$35.

Being on the Cheer Leading squad keeps her occupied in many ways.

One of the important activities is that of making signs for the many student body athletic contests. Classes in sign making are taught at the Cheer

Mrs. Steers in VA Hospital

Mrs. Elmer Steers is in the Veterans Hospital in Walla Walla undergoing asthma tests. Mr. Steers and Nola, Mr. and Mrs. Sam Steers and Grace Buschke spent Sunday with her. Mr. Steers returned to see her again on Monday.

G-T PHOTOGRAPHER Matt Warren snapped Gar Swanson in front of the combine run by Jim Swanson. Mr. Swanson is looking at his new invention, a Triangle Reel on a combine that was being used in harvesting barley recently near Ione.

Grain-Saving Invention Tried

A shakedown cruise — or trial run — on a new triangle reel has shown almost no mechanical faults recently. Gar Swanson said he had thought about this type of reel for several years and built the working model this winter.

A patent has been applied for. Mr. Swanson has a registration number for the model. The principal is that it is a reel of triangle design instead of the usual round design with slats, a type which doesn't get close enough to the cutter bar to get grain back into the auger or to feed into the machine satisfactorily.

On his model, the reel slats run on chains and the slats

sweep across the cutter bar forcing grain back into the platform auger.

Purpose of the new improvement is to save heads of grain which ordinarily ride and fall off the cutter bar. Mr. Swanson calls it a triangle reel for combines, to save grain. He said the model appears successful on tangled and blown down barley. It seems to have the tendency to make a really even feed into the combine.

Experienced farmers believe the theory is real good. The Swansons will be running soon on wheat near the Paul Tews place. He said this would be a good location to view the new model at work.
