Cougar Given To Museum

In a little ceremony here yesterday at the Morrow County Museum, Jerry Sweeney — representing the estate of Jeff Walker — gave a big and handsome cougar hide to Rachel Harnett, curator of the museum. The handsome cougar — with the head still on the hide with lips curled in a sort of royal snarl — was killed in 1962 by Jeff Walker who was a famous Morrow County hunter. He had shot several and this animal was one of the largest, measuring 8 feet and 4 inches long. This cougar is believed to have been one of the last killed before Oregon declared cougars a game animal.

HIGHER PARCEL POST RATES EFFECTIVE NOVEMBER 14

An increase in postage on parcel post will go into effect Nov. 14, Postmaster James H. Driscoll said today.

The increase of 15.4 percent was authorized by the Interstate Commerce Commission July 16 but is being delayed by the Post Office Department as an encouragement for the early mailing of holiday gifts.

Postmaster Driscoll said Postmaster General Winton M. Blount "hopes to provide an incentive for families and friends with servicemen overseas to use the low-cost military mail service so their gifts will arrive before Dec. 25."

To ensure delivery by surface mail of parcels to servicemen overseas the parcels should be mailed by Nov. 7. The rate increase effective Nov. 14 will apply to all parcels.

Also effective the same date will be a 6 percent increase in the postage rate on catalogs. The two increases are expected to yield about \$123 million in additional revenue, enough to have these fourth-class mail services pay their full costs as required by law.

PRICED WITHIN EVERYBODY'S BUDGET

Air conditioning makes you work better, sleep better, feel better

Remember those hot, muggy days last summer? And those sultry nights when you turned and tossed with hardly a wink of sleep?

Well, there's really no reason why you and your family need suffer through another hot summer. Air conditioning is no longer a luxury; the new, modern units are now within nearly every budget. And what a difference air conditioning makes!

Air conditioning is a real wife-saver; takes the heat and perspiration out of ironing... cooking... canning... and all those chores that seem almost impossible to do on a

Room or central air conditioning?

If you are planning to build a new home or remodel your present one, consider year-around climate control with central air conditioning. A heat pump is ideal because it maintains the same temperature all year. It will cool your home in summer; heat it in winter. Yet an electric heat pump costs little more than a conventional heating system... the cooling feature is almost like an extra bonus!

Room air conditioners are practical for every home. They are relatively inexpensive and can be added room at a time.

Dehumidifiers prevent rust and mildew

No need to worry about tools rusting in your basement or clothing and leather goods mildewing in your

closet. An inexpensive dehumidifier takes damaging moisture from the air... and does it for only pennies!

The new, light-weight models are completely portable and can easily be moved from room-to-room. Their big capacity for moisture removal means that a single unit can usually solve your problems... even if you have a large, damp basement area.

Stop by or phone your electric co-operative for additional information about air conditioning or dehumidifiers. There's no cost or obligation. You'll get many practical suggestions which will help your family live better... with low-cost rural electric power.
