The world market price for the 1968 crop of wheat was at times higher than the U.S. price, and an export certificate pool accumulated. The original law provided for this pool to be divided pro rata among wheat producers. "For most producers, it would be a payment of only a few dollars—less than a dollar, in fact, for many," McLeod said. "The new law allows them either to receive their pro rata

shrae, or leave it in the pool to be used in research and promo-tion of U. S. wheat," he added. The law authorizes the Secretary of Agriculture to enter into agreement with farm organizations representing wheat produce interest, such as the newlyformed National Wheat Institute, to carry out research and

promotion. The institute is a non-profit organization representing a cooperative effort among wheat producer groups to increase do-10 mestic wheat usage. The Oregon Legislature, however, must review such changes when it meets in regular session and may modify or reject them. 3. Authorizes state-wide property tax to provide for payment of bonds if legislature does not provide other revenues. Super- sedes conflicting constitutional requirements.
