If you've been wondering about nuclear power plants, and perhaps how high they blow up or if they would, you may be interested in a Nuclear Educational Conference to be at the Hermiston Junior High. It will be held as an all-day meeting from 9 a.m. to 4 p.m. It is to be sponsored by the Umatilla Extension Service, Darrell Maxwell, county extension agent in charge.

It is open to the general public and will have some very competent speakers involved. Speakers will come from the radiation center of Oregon State University, scientists from the Fish & Wildlife Service and other agencies.

So far we've detected no organized effort against nuclear power plants locating here in Morrow County except by two or three. These opponents are not worried about an explosion or accidents or anything like that. They just plain think it's crowded enough around here as it is and their rallying cry is "Stay home, Yankee" or something like that.

We're sympathetic with their feelings. And an influx will definitely mean fewer and narrower wide open spaces. But, at the same time, our area must have opportunities for the young folks. It appears that with the coming of nuclear power plants would be many satellite industries, in addition to many agricultural opportunities from the coolant water used for irrigation. We believe, as a number of people have told us, that the "land of Morrow will truly bloom".

The Spray town team in a game with the Jaycees last Thursday at Spray beat the Jaycees with a score of 102 to 39. This brief story was reported to me in tears.

Directors Hear Solutions to Juvenile Problems

(Continued from page 1)

and Robert Harris from Hillcrest both spoke on the reorganization and changes in treatment methods at both of the Homes. To stress county ties, cottages are now organized according to geographical areas.

Dr. Loyal March, psychiatrist from Multnomah County Juvenile Department, talked about new trends in behavior modification. Their stress is to develop a sense of responsibility to one's self and to others as the beginning point of modification.

Of special interest to Morrow County was the discussion of a Youth Services Bureau—a more informal helping agency which may be established in a community where all agencies which deal with children cooperate including schools, police departments, welfare, Juvenile Courts and others. The bureau acts as an advocate in the community in securing for any youth the kind of help he needs such as financial aid, counselling, employment. The community itself must submit a plan for its organization.

Judge Edward Leary was elected president of the Oregon Association of Juvenile Judges. Jim Epley was elected chairman of the Juvenile Directors Assn.

Both Juvenile Judges and Juvenile directors favored legislation which would make the eight counties not under Circuit Court Judges eligible for State Aid to Juvenile Departments.
