

Boeing Company Tells Big Farm Plans

"Back to Agriculture" are the magic words from Boeing on the near-term plans for the Boeing Space Age Industrial Park. It's big and its beautiful.

Denver Grigsby, Boeing's manager of the project made a progress report to the Governor on Tuesday and to the people of Morrow County on Wednesday morning at Boardman.

The multiple land use Master long range plan calls for agriculture, commercial, industrial, recreational and residential development.

Cornell, Howland, Hayes and

Merryfield have been retained to write the development plans by mid-1971. Boeing is expected to open their office in Pendleton in about two weeks.

The initial study showed that agriculture would be feasible, practical and ultimately profitable. Mr. Grigsby said, "the by-products of the agricultural use might be more interesting than the agriculture itself".

Although the project is in its formative stage, realizing Boeing's reputation for building the best in Aero-space, those who heard the report are confident that the project will get off the ground.

Plans are very elastic and all ideas are being considered. Plans are to give current sub-lessees an opportunity to participate in the development.

About 60,000 of the 100,000 acres will come under the development. The size of the area was overwhelming to Mr. Grigsby as he came in from driving over it. However, he said, "look at it in 10,000 acre tracts at a time".

The test facilities will be retained and include a 3-jet test

stand, 1 rocket engine test stand and SST test facilities will be added.

Nuclear site on the property was discussed. He indicated that the water from a nuclear plant would help but not be necessary. He told the group that Boeing was prepared to tie in their plans with a nuclear plant if one became a reality.

He was re-assuring in that he said Boeing wanted to work with the area in such a way as to be compatible to the total area. He warned "as you develop something as big as this

some people won't like it".

The 60,000 acres lie to the back side of the park. He indicated development would be done over a period of years as 60,000 acres of produce thrown on the market at once could be economically destructive.

It also came out at the meeting that industry does have top priority even if the land had already been developed agriculturally. One of the Boeing representatives noted that an aluminum plant had looked over the site but due to the shortage in the labor market had

not considered the site as feasible.

To support the 60,000 acres of agriculture Mr. Grigsby said he thought 5000 people and supporting people would come into the area. In Salem, the question was asked if they were considering building a town and the answer was "no".

The tax situation has not yet been settled and Boeing, as all concerned, want the proper tax.

Some consideration may be going towards grass lands for pasture, for cattle for possible meat processing plants and other processing plants. Boeing officials are accustomed to being ready to go for the count down. Mr. Grigsby compared the seasons with the count down and said they were steering for the 1972 planting season.

He explained Boeing's diversification: housing by going into modular homes, computer services on a competitive basis for other firms, building hydrofoil boats. Most of these Boeing done in the Seattle area.

The meeting ended with an optimistic note with a feeling that "something was going to get off the ground."

Steve Warren Conducts Tour

Heppner Morrow County Chamber of Commerce members at their Monday luncheon at the Wagon Wheel were taken on a tour of South America. Steve Warren, recently returned from a 2-year mission for his church, the Church of Jesus Christ of Latter-day Saints, told of his experiences in Colombia and Venezuela. He passed around photos and some interesting souvenirs of his visit. There was intricate leather work and brass work, an alligator head letter opener.

Steve spoke with good humor of living among the people in the Latin American countries. Coffee is principal product in Colombia, with some banana production. 60% of the people are quite poor with probably about 15% rich and a small middle class. Venezuela is better off with oil being main export.

He is proficient in Spanish and had taken two years of Spanish in Heppner High School, besides a cram course in the U. S. before going on his trip.

He displayed a soccer ball, soccer being the most popular field sport there. Most students can speak some English.

He lived largely in boarding houses for about \$50 a month. Most of the time he had cold showers as hot water is rare.

He reported they had two seasons — wet and dry. Temperature is mostly around 85 degrees.

Meeting

President Gene Pierce during the brief Chamber meeting said Jerry Sweeney was to chairman the Nuclear Siting Sanctioning Committee. The Port Commission has set up meetings of this group for all the towns in the county.

Oscar Peterson announced a meeting Thursday of the Area Development Committee.

Mustangs Top Stanfield Game

Despite terrible free throw shooting (9-25) by the Mustangs, and working out a new offense, the Horsemen overcame Stanfield 63-60 here Saturday night. The new offense enabled Steve Kemp and La Verne Van Marter to drive the key frequent-

ly and gave them better shots. As a result Kemp hit for 24 points and Van Marter for 25. They looked nearly too good to beat in the first period, where they outscored us 17-18. At the end of the half, the Tigers still had a one point lead 33-32.

Stanfield still had the one point advantage at the end of the third quarter. But the Heppner defense allowed only two Tigers to score in the fourth period. Heppner dumped in 17 points to Stanfield's 13.

Individual scoring: Kemp 24, Van Marter 25, Watkins 6, Hall 1, Bellamy 4, Rhea 2, Curnutt 1, Gunderson, Roberts.

Heppner Rodeo Goes RCA

Ronnie Raymond, stock contractor from the Double R Rodeo Co. of Paulina, met with the Morrow County Rodeo committee Tuesday evening. The Double R will furnish the stock for the 1971 Heppner Rodeo. He will furnish bucking horses, bulls, bulldozing steers, team roping steers, roping calves and clown.

The board voted to send approval forms to the Rodeo Cowboys Association office in Denver for approval of the Heppner Rodeo.

The last RCA Rodeo held in Heppner was in the early 1950's. The 1971 Rodeo is set for Aug. 28-29.

Heppner High Honor Roll

Heppner High School has announced the students on the honor roll for the second nine week period of the first semester of the '70-71 school year.

HHS to Show Alfred Hitchcock's Film, 'Psycho'

The HHS yearbook staff will present "Psycho" in the cafeteria on Feb. 6 and 7. This will surely be the most famous and talked about movie ever shown at our school.

Every scene is intact, the way it was originally made and produced by Alfred Hitchcock. Included in this showing are scenes the TV version did not dare show. "Psycho", the story of a young woman who steals a fortune and is about to get away scott free when she encounters a man who is under domination of his mother, who is a "homicidal maniac." A typical Hitchcock thriller, the story is laid against the background of an isolated motel and a Victorian Mansion. This movie will keep you on the edge of your seat for the entire 108 minutes and the much talked about, blood-curdling shower kather sequence occurs exactly 44 minutes after the start.

"Psycho" will be shown at 7:30 p.m. on Feb. 6 and 2 p.m. Feb. 7. It is rated for adult or mature audiences.

Ione Cardinals See Victory and Defeat in Weekend Contests

The old adage "Win Some, Lose Some", might be applied to the Ione Cardinals' weekend contests. An over-whelming victory was theirs Friday night over Umapine and Saturday night brought defeat from Weston.

In the Friday night Umapine game, Ione shot an impressive 43 per cent against Umapine's 11 per cent. "Everyone got to see a lot of action—everything we threw up went in but Umapine had two regulars missing," Cardinal Coach Eugene Dockter commented. The upset ended with a score of 71-14.

Saturday night's match with Weston ended on a different note with Weston scoring 89 points to the Cardinals' 51. Coach Dockter said, "Although Dick Snider played a good all around game, nothing went right and this is the poorest game we've played this year."

Individual scoring

NOTICE

There is an important annual meeting Monday evening, 7:30 p.m. at Morrow County Courthouse of the Willow Creek District Improvement Co.

School Board Okays Salaries

A special school board meeting and budget hearing was held Tuesday evening at Lexington School.

Agreement was approved by the school board of the P.E.C. Committee of the teachers on the salary schedule with a base of \$6900. Increments of \$250 a

year were approved. They added one step to the college degree columns; the BA plus 60 column, the MA column and MA plus 30 columns. This reflects the 3% increase in the base salary. However, the increases with the increment will vary from just under 4% to about 7%.

Scientist Tells Lions Of Power Need

Dr. John Riches of Douglas United Nuclear of Hanford, Wn., kicked off a group of meetings for Morrow County when he appeared Monday night at The's at an Ione Lion's meeting.

As Gar Swanson had predicted, he spoke to a full house who listened carefully to his explanation of the vital need of power, to be produced by nuclear plants.

"Safe Neighbor"

Dr. Riches has worked for 20 years with nuclear reactors and he spoke on how it affects our environment and how it is a safe neighbor.

He said there is a great and growing need for more electricity in the Northwest. Though controversial, dams were built and our standard of living improved.

There are very few hydroelectric sites left. By 1976 and '77 additional electric power will be needed. More things are being invented that use electricity in the home. Electric cars may also mean an added demand for more power.

There is a growth of 4% a year in requirements for electricity.

Dr. Riches displayed graphs and charts showing the various comparisons for his subject.

There are many industries in the Northwest highly dependent on electric power for their energy.

He explained that we must now go to thermal power—coal, oil, gas or nuclear power.

He showed a drawing of the parts of a steam power plant, only a third of the heat being in the boiler being utilized for power. Price of coal is growing.

A nuclear power plant has a core of rods ten feet long in special clad covers which heats water creating steam to run the generators and using water to cool the condensers. There are also other methods and by 1980 will be highly refined types of creating nuclear electric power.

All nuclear power plants so far have operated safely. The only accident was one entirely in a building and no one was injured.

Slanting to the environment, he pointed out coal plants are quite smelly and dirty. Many coal plants put out more radioactivity from their stacks than do the nuclear plants.

Expendable fuel elements from nuclear plants are shipped in shielded containers by railroad for remanufacture.

Before a nuclear power plant can be built, all designs, the siting and all phases of the personnel and the utility are carefully studied by the Atomic Energy Commission before a permit is issued.

Dr. Riches told about various exposure levels and explained there is already considerable radiation from the earth, from brick walls and amounts vary

in various parts of the world. Denver has a rating of 200 millarems, New York has 100, La Paz, Bolivia has 400 and a place in Brazil 1000.

We have sources of radioactivity from the sun, from our bodies. A person traveling by jet gets a bigger dose of radiation the higher he flies.

However, our bodies will accommodate a certain amount of radiation.

He said several reactors have been operating for 11 years.

A Department of Health study showed no measurable difference in the amounts of radioactivity in the vicinity of the plants.

Manufacturers are working to reduce the amount of radioactivity.

(Continued on page 8)

This year's cost on salaries was \$763,571.

Next year's cost will be \$779,576. This includes \$3,000 in tent to advance for a number of teachers.

While this reflects an increase of \$36,005 or 4.7%, because of staff reductions and staff changes, the budget increase will only be \$16,373 or 2.1%.

The Board agreed to pay tuition on the hours required of teachers. Requirement is 9 quarter hours every 5 years. Cost is 9 quarter hours times \$17 for one fifth of the staff.

They will increase the payment on health insurance to \$7.50 per month.

They will place all junior high coaches on the same coaching pay schedule.

Board also approved an additional 10 days of cumulative sick leave.

On the classified employees Board approved a 5% base salary increase on all schedules except bus drivers who remain the same. They increased their health insurance \$1 a month for a total of \$7.50.

Budget Hearing

At the budget meeting Harley Sager was elected chairman of the budget committee. Mrs. Beverly Gunderson was elected secretary.

Ione Tells Honor Roll

Ione Junior-Senior High School has announced its honor rolls for the first semester. On the A honor roll with grades from 3.5 to 4.0 are:

SENIOR — Chris Gutierrez, Jane Krebs, Marianne Pettyjohn, Jeri Snow.

JUNIOR — Cheri Carlson, Jackie Howton, Mary McElligott.

SOPHOMORE — Christina Lindstrom, Kathleen McElligott, Melissa McElligott, David Warren, Gregg Wilson.

FRESHMEN — Mary Pat McElligott.

EIGHTH — Joel Peterson, Sherri Wilson.

Placed on the B Honor Roll with grades of 3.0 to 3.5 are:

SENIOR — Carley Bergstrom, Kathy Holtz, Tanya Tucker.

JUNIOR — Cindy Barnett, Shauna Bergstrom, Clint Krebs, Marlene Magill.

SOPHOMORE — D-Ann Barnett, Cindy Ekstrom, Anne Hoskins, Dick Snider.

FRESHMEN — Cassy Chapel, Jan Ekstrom, Donna Flack, Kathy Gilbert, Cheryl Hams, Joan McElligott, Nancy Pettyjohn.

EIGHTH — Barbara Palmer, Charlie McElligott.

SEVENTH — Skye Krebs, Catherine McElligott, Lauretta Piening, Joe Rietmann.

NFO Meeting Tonight

The information meeting of the NFO will be held this evening at 8 p.m. at the Ione Legion Hall. Non-members as well as members are encouraged to hear Rick Rogers, Klamath basin National Director for the State of Oregon. He will speak on "Lift of Commodities" moving commodities from various areas to improve the market price. He will also talk on the advantages of marketing wheat through the NFO.

Representatives are expected from three other counties of Umatilla, Gilliam, Sherman, as well as Morrow County. Coffee and doughnuts will be served following the session.

Explanation

At the time of paying their entry fees, any contestant who enters an NRA approved Rodeo pays an additional dollar. The monies from this collection are divided between the timers and judges if they are members of the NRA. The NRA says the judges and timers must be NRA members to collect any part of the extra dollars collected.

E. O. Logging Wins Awards

"A SAFETY Achievement Award" was presented to the entire crew of the Eastern Oregon Logging Co. for their fine accomplishment in completing a year with no lost time injuries. Shown here accepting the award are Milo Prindle, Logging Manager, and Allen Nistad, General Manager. In the background are shown members attending the dinner given for all employees and their wives last Saturday.

SHOWN HERE are Foreman Troy Day being presented award by Bill Bolender of the State Accident Insurance Fund at the Saturday dinner meeting at Kinross. The recognition is for completing three years without a lost time injury. Pictured are Don Marten, Mick Wright, Grady Rogers. Back row: Jiggs Bowman, Bill Bolender, Troy Day and Jim Nyseth. Not shown were Wayne Brinkley, Joe DeVine, Archie Monroe and Vern Cecil.

Full Schedule Begins With District Meet For Legionnaires

The Heppner American Legion and Auxiliary will host a district meeting here Jan. 29 at the Legion Hall beginning at 8:00 p.m.

Guest speakers will be the Department Commander of the Legion and Department President of the Auxiliary. The Ione, Milton-Freewater, Mission, Hermiton, Athena and Pendleton posts and units will be in attendance.

Saturday, Jan. 30 is the date set for the Jaycee-Legion and Friends Dance at the Legion Hall from 9:00 to 2:00. A potluck dinner will precede the dance at 7:00 p.m. All Jaycee and Legion members and their friends are cordially invited to attend. Music will be provided by the Roy Quackenbush Band and there will be no admission charged.

A Family Potluck dinner will begin at 7:00 p.m. on Monday, Feb. 1 at the Legion Hall in Heppner. Legion and Auxiliary meetings will follow.

Drug Meet Planned

Lt. Lyle Earley of the Pendleton Police Department will speak on the drug problem at a Jaycee-sponsored meeting here Jan. 29 at 7:30 p.m. at the high school. He will be accompanied by a former drug addict who is anxious to tell of his experiences while on drugs.

The Jaycees invite the old and the young to hear these two speakers, participate in the question and answer period and enjoy a cup of coffee to close the evening.
