Easter Sunday

Easter is almost upon us again. The date is April 11. In the Christian world, Easter Sunday commemorates the Resurrection of Christ.

Many capture the spirit of Easter by going to Church. The simple Easter egg hunt and the tradition of the Easter bonnet lend joy and color to the occasion.

All Invited to Attend Good Friday Service

All faiths will be represented in the annual Good Friday service to which everyone is invited. The service will be composed of multiple sessions beginning at 2 p.m. at the Assembly of God Church.

Too Late and So Sad

The SST will come. Airlines have to compete and they will compete with aircraft required. They would prefer U. S. equipment but they will use what is available.

It is important that the United States keep its position at the head of the line in aerospace. It is important that every type of American worker be employed from the scientists, engineers, blue collar worker and on down the line to maintenance men.

The SST program would have provided a shot in the arm for the northwest as well as the whole United States. The employment would have boomed. Subtracting would have filtered down into Oregon.

The SST program is controversial. It has strong support and considerable opposition. There also is quite a bit of confusion about the U. S. SST program and the operational aspects of the airplanes.

SST proponents are aware of other national priorities. However, the SST program can be a plus factor in providing jobs and a substantial tax base to support other national needs.

The production program for commercial SST's will employ about 50,000 persons at peak production. About half of these will be sub-contractor and supplier employees.

The above information comes from a Committee for an American SST at Seattle.

Assumptions: 200-500 planes to be sold between 1976-1990. 3-4 planes per month to be built during peak production.

Total estimated sales per plane by OREGON companies \$843,000.

Less components produced by OREGON companies outside the state, \$250,000. Net production in OREGON per plane, \$593,000.

Benefits for the OREGON ECONOMY. Total sales by Oregon companies on SST program — \$120,000,000 to \$300,000,000.

Peak annual SST sales by Oregon companies—\$27,000,000. Full-time Oregon employment potential for 5-10 years—1,100 persons.

Prototype work on SST by Oregon companies during the next several years will help substantially to offset the losses in production on small jet planes.

Neighborhood Center Calendar

- (April 8-April 14) Thurs., April 8—Abundant Foods Demonstration. State Unemployment Insurance claims processor (10:00 noon and 1:00-2:00 p.m.) Senior Citizens Social and crafts afternoon. Advisory Council meeting, 8:00 p.m.

Phil Smith Visits Here from Canada

Mr. and Mrs. Phil Smith, Cynthia, Susan and Brenda are down from Smithers, B. C., to spend spring vacation with relatives and friends.

Currently about 22,000 people between ages 15 to 44 die of cancer annually. Help reduce the number. Give to the American Cancer Society.

Chuck Wagon. Myrore Elder of Bremerton, a sister of Maurice Elder, sent down a clipping of a cartoon from the New Yorker Magazine.

Now that spring is just around the corner you may want to know about some little old facts we gathered down at Phoenix.

In a store we read this kind of a thinly veiled warning: If you hear a shot, don't be alarmed.

After talking to the Charles Ruggles, we expected some sunshine and a little warmth, never expected it to be in the eighties.

Our reaction to the country was somewhat like Barton Clark's. There's a lot of nothing in a lot of the area.

This little newspaper was recently 88 years old. We'd just like to say a great big Thank You to all the good folks—subscribers and advertisers—

We had no idea there were so many horses! Numbers of registered quarter horses have exceeded all previous records.

Eddie Gunderson caused a commotion Sunday on the 9th at the Willow Creek Country Club. You'd have thought the cavalry had arrived or something.

Well, sir, Eddie made a hole in one.

Among the biggest problems for highway planners are urban, suburban and bourbon.

When you're 8,000 miles from home, you hardly know what to expect. Some place south of Da Nang, two Morrow County GI's briefly met Gary Ball.

Jim Monahan, a Heppnerite who is now a lawyer in Washington, D. C., was in the Gazette-Times office Christmas time.

Mayor Collins and Judge Jones are interested in hearing what you think about a century celebration for Heppner next year.

Seems like sometimes there are surpluses all over. Mrs. Avon Melby spotted Mrs. Suzanne Jepsen getting out of her car in front of the post office.

We'd like to tell you a joke but can't think of anything cat-tier than that.

On March 9, the Merry Mixers met at Mrs. Pat Pettyjohn's home. We then cooked a full course meal.

Friday, April 16—Meat sandwiches, baked beans, carrot and celery stix, pickles, potato chips, pineapple upside-down cake, milk.

HARVEY CHILDERS

Two Childers At State Capitol

The thrill of a life time came to Harvey Childers of Ione when he served as page during Spring Vacation in the Oregon Senate.

Harvey, a 13 year old 7th grader is the son of Mr. and Mrs. Cleo Childers. He liked the activity of taking phone messages and delivering notes.

Going along with him was his 11 year old sister, Laurie. She distributed literature with Mrs. Gwen Mitchell of Helix and she also acted as a guide for the children's tours in the House of Representatives.

TO THE EDITOR...

Moro, Oregon April 3, 1971 Heppner Gazette-Times Heppner, Oregon To the Editor:

Perhaps I should communicate directly to the people of Morrow County.

The history of Morrow County has been written and is in the hands of the publishers. It will always be a history of Morrow County and be so known.

At present the name "The Heppner Hills" is the title for the book. Why? The area that is now Morrow County was called the Heppner Hills before the legislators named it Morrow because they liked Jackson Morrow.

Mr. and Mrs. Gene Lancaster and son of Cecil drove to Tacoma, Wn. and back last Sunday.

O'Mears Apartments located on Main Street have recently been sold to Mr. Elmer Holtz.

Mrs. Roy W. Lindstrom is a patient in the Pioneer Memorial Hospital in Heppner.

Very Truly, Giles French

Appy Cee Takes First in Horse Show

Jim Farley's registered Appaloosa, Appy Cee came home with honors from the Oregon Trail Appaloosa Show in Pendleton on March 27.

He was awarded first place in the Barrel Race ridden by Rolce Fullerton and first in halter class.

School Lunch Menus

Presented Through Courtesy of Heppner Branch

Wednesday, April 14 — Beans and ham, rolls, butter, celery and carrot stix, fruit cobbler, milk.

Thursday, April 15 — Sloppy Joes, homemade bun, green beans, lettuce wedge, fruit and cookies, milk.

Experts Assemble For Land Use Study Of Boardman Site

A team of more than 25 engineers, scientists, planners, economists and technicians encompassing 15 disciplines has been assembled by CH2M/Hill to conduct the multiple land use study of the 100,000-acre Boardman site for the Boeing Company.

The \$250,000 study is concerned with the feasibility of developing the Boardman area's agricultural potential, and subsequent industrial, residential and recreational potential.

To assemble a team with the broad range of disciplines required to deal with the many facets of the project, CH2M/Hill called on specialists from four of the firm's nine regional offices—Seattle, Portland, Corvallis and Redding.

Directing the study as project manager is Fred Harem, head of the firm's water department in Corvallis. Coordinator of the team as project engineer is Robert Schilling, electrical and nuclear engineer, who also is responsible for concepts for joint use of water for irrigation and reactor cooling.

Others from Corvallis and their roles in the study include: C. Y. Shieh, pumping and wa-

ter transmission; Robert Conklin, piping system costs and water rights; Joe Maurais, electrical supply system and costs; Wesley O'Neil, computer specialist, piping system optimization programs; Vaughn Sterling and Robin Nelson, storage reservoirs and dam concepts and costs; George Silkworth and Henry Galka, corrosion protection for buried pipelines; Ralph Peterson, long range plans for processing plants and industrial waste treatment; Harry MacKay, waterfront development planning.

From Seattle, team participants include Dr. Roger Willis, agricultural economist, marketing, cropping, agronomy and cost and return analysis; Jeanette Strachan, economist, economics base study—land costs, taxes, etc.; Frank Lanou, economist, market analysis; Dr. Her-

schel Jones, economist, management plans and financial consultant. Roger Budke, planner, from the firm's central planning staff in Portland, is dealing with the overall master plan for the project.

The Redding regional office is contributing Ed Lance, irrigation engineer; Morgan Powell, soil characteristics and water requirements; and Jack Beasley, sprinkler system economist.

Special consultants on the project include Wesley Paulson, Auburn, Calif., ground water geology; Dr. Jerry Simonson, Oregon State University soils scientist, soil management and crop production; William Dowling, Douglas United Nuclear, Richland, differential cost information on nuclear reactor type concepts; and Jack Twitchell, Redding, Soils scientist.

Pioneer Ponderings

By W. S. CAVERHILL

How Do You Do?

Seventy years ago, when we had something to do, we did it without interference. Not so, today. Now, it sometimes, takes more doing to get the right to do what we want to do than it does to do it.

SEWING

The Busy Sewing Bees met at Mrs. Hall's house March 30. The meeting was called to order by Joan Warren, President, Traci Boner, vice president, Betty Fay Greener, secretary, Marilyn Jessmer. We had cookies and punch. We started our shirts. Half of the girls are making a mail or a skirt.

Non-Fiction

A White House Diary, by Lady Bird Johnson; Up and At 'em, by Lt. Col. Harold E. Hartney, (A World War I Air Combat Classic); The Day Kennedy Was Shot, by Bishop; Time Out for Happiness, by Gilbreth; Faith, Hope and Hilarity, by Van Dyke; The Americans, by David Frost.

Older Girls

Doctor Betty, by Wells; Shadow in the Greenhouse, by Girvan, (Mystery).

Juvenile

Nobody's Cat, by Miles; The Hotel Cat, by Averill; Mr. Brown Can Moo! Can You, by Seuss; Rockabye to Monster Land, by McKee; Sammy The Crow Who Remembered, by Hazelton.

Adult Fiction

QB VII, by Uris; Dynasty of Death, by Caldwell; Caravan to Vaccarae, by MacLean; The House on the Strand, by Du Maurier.

Lovers All Untrue, by Lofis; The Callahan's Gamble, by Ames (A sequel to "That Callahan Spunk"); Whistle and I'll Come to You, by Turnbull; Hallowe'en Party, by Christie, (Mystery); There Was an Old Woman, by Davis, (Mystery).

BANK OF Eastern Oregon advertisement for Spring Luncheon. Includes details about the luncheon on April 15 at Lexington Grange Hall, \$1.25 per plate, and a Rainbow Car Wash event on Saturday, April 10 at 9:30 a.m. at Richfield Station Heppner.

COMMUNITY BILLBOARD advertisement.
