

DOTS JOTS

A hat full of apologies to Carl King... I forgot to give him a photo credit line for the picture we ran of the Ray Panter, Linda Kahr wedding!

My son-in-law says I'm the most "gonna do" person he knows. I like a suggestion that came from Oregon State. It says: "Make a list of 'must-do', 'ought-to-do' and 'hope-to-do' jobs. Some are daily, others weekly or occasional. First take care of the 'must-do's'. Then take on some of the 'ought-to-do's'. Block time for one of the 'hope-to-do's'. — some sewing, painting, reading or something else you really enjoy. That would really fill up my Saturdays!

Here is another jewel from that new folder that is coming out monthly from the OSU Extension Service. It is printed dark green on a medium green paper stock that is really handsome. It is specially for the Young Homemakers. I glean all the goodies I can from it then I send it on to our daughter, Judy. Anyone wishing to receive it, may call your name into the County Agents office.

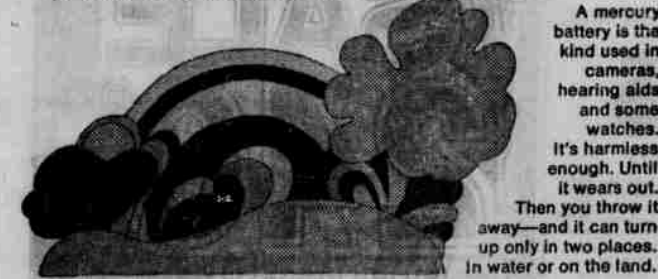

This statement is by Dr. Joyce Brothers... now I don't know Dr. Brothers but this makes for sense... "A good mother is good on her own terms, not anybody else's. If you love baking bread and hooking rugs, it needn't matter to you that Mrs. Smith next door has a part-time job. If you like the feeling of being busy in the world, you have a right to enjoy a job that uses your best talents — and you shouldn't feel guilty about serving store-bought cookies. Because the more you do what makes you happy and fulfilled, the better the chances that you'll be an almost perfect mother".

TIME MOVES... FAST
All 4-H'ers are reminded to prepare for county fair events ahead. Dates of the big event are Aug. 23-27. Early preparation makes fair participation a pleasant experience.

Trade in your worn out Mercury batteries for something Precious. A Healthier World.

A mercury battery is the kind used in cameras, hearing aids and some watches. It's harmless enough. Until it wears out. Then you throw it away—and it can turn up only in two places. In water or on the land.

And that's where the trouble begins. Mercury pollution. Mercury pollution can affect the water we drink, the fish we eat, the crops that grow, the birds that fly—nearly the entire environment we depend on for life.

No, mercury batteries, even millions of them are not the biggest mercury problem. But a part of it. The part you can do something about.

If you have any of these worn out mercury batteries around the house (It doesn't matter where you bought them) bring them into us. (No flashlight batteries, please). We'll turn them in for recycling.

And you'll get more than personal satisfaction and the feeling of a good deed well done. We'll give you a FREE ecology pin—for you to wear to alert others, and to remind yourself there's a job to be done.

To fight pollution you have to start somewhere. How about right here? And now!

"Something from the jeweler's is always something special."

Household Shower Thrills the Carl McDaniels

Friends of Mr. and Mrs. Carl McDaniel honored them with a Household Shower on the evening of July 7 at the Methodist Church basement. The McDaniel family lost their home and much of their household goods during the recent flood.

The hostesses were clever in that they gave the colors Sylvia will use in the rooms of the home they are moving into on Water St. Her kitchen is celery green, bathroom white and green; one bedroom is green and white and the other bedroom white and red.

Friends brought gifts for all the rooms. There was very little duplication. Sylvia said, "I feel like a bride" as she opened the many gifts. Hosting the affair were Mrs. Herman Green, Mrs. Ida Farra, Mrs. W. W. Weatherford, Mrs. Howard Bryant and Mrs. Owen Leathers.

Recently Mrs. McDaniel was honored with a personal shower by members of the Soroptimist Club.

McDaniel Reunion

The annual Sam McDaniel family reunion will be held July 18 at Anson Wright Park. Potluck dinner will be served at 1 p.m. Coffee will be furnished. Friends are cordially invited to join in the fun.
