

New Board Policy Geared To "Preventive Discipline"

Much of the Monday night meeting of the Morrow County School District board of education was spent in "preventive discipline". The board reviewed, discussed and adopted new policies resulting from prior board action or new legislation.

Policy adoptions included: 30 minute duty free lunch period for all certificated staff members below the rank of principal. It is hoped scheduling can be arranged so that aides will not be necessary.

Health Insurance program for all employees, tuition reimbursement for teachers, Compulsory retirement, Election procedures for consultation representatives, Non-Resident pupils tuition policy, Grievance Procedure, Jury Duty, Sick Leave, Teacher Evaluation, Fire Drills, Pay Day, Grooming and Dress for Teachers and Student Drug Policy.

Specific guide lines were set up in each policy adoption.

Mr. Daniels said he was sure that the drug problem would be more evident this year than last.

Student Drug Policy

The Student Drug Policy reads: The state law prohibits the possession, use or sale of narcotics and habit-forming drugs. This obligates the school district to enforce a policy prohibiting the possession, use, sale or source of supply of narcotics and habit-forming drugs on or near the school grounds or at any time students are going to or from school or while being transported to any school-sponsored activity.

The school board also wishes to emphasize that as a part of the principal's regular duties he is authorized to conduct periodic locker inspections and may, if he deems it necessary, make spot locker checks at any time. Recent court decisions have clearly affirmed the right of the administration to search student lockers.

Violations

POSSESSION: Students in violation of this policy for the first time by being in possession of any narcotic or habit-forming drug will be suspended from school and may be subject to referral to the Board of Directors and the Board will consider expulsion from school. A conference with the parents or guardian will be required for reinstatement. A second violation of being in possession will be referred to the Board of Directors and the Board will consider expulsion from school.

USE: Students in violation of the policy for the first time by using narcotics or habit-forming drugs will be suspended from school and may be subject to a referral by the Board of Directors and the Board will consider expulsion from school. A conference with the parents or guardian will be required for reinstatement. A second violation of using the narcotics or habit-forming drugs will be referred to the Board of Directors and the Board will consider expulsion from school.

SALE OR SUPPLY

Students in violation of this policy by selling or supplying narcotics or habit-forming drugs will be referred to the Board of Directors and the Board will consider expulsion from school.

STUDENTS FEINTING

the selling, supplying, using or under the influence of narcotics or habit-forming drugs will be subject to disciplinary action commensurate with the seriousness of the act.

Drug violations by students either in possession, use or sale will be reported to proper law enforcement officials for subsequent follow-up action on their part.

Dress Code

In the preparation of a student dress code, Supt. Daniels has asked the administrators to determine the wishes of their respective communities. He has asked that they meet with their student body officers, advisory committee, teacher representatives and parent representatives.

A report from each of the meetings will be forwarded to the district office. The reports will be correlated and a uniform code for the county based on broad principles will be written and presented for adoption.

Pendleton Round-Up

Last year the board had a policy of excusing students for an individual basis. This has sometimes been on Wednesday which is Family Day or on Friday to include the parade. This year there is the additional problem of Thursday being Morrow County Day. The board decided not to excuse school on any one of the three days and follow last year's policy of excusing pupils on request.

Employees

The board approved the employment of Percy Cecil to drive the 8 Mile bus run and Jim Bar-

nett the Zinter-Kinzer run. On the recommendation of the local advisory committee Dolores Pummel was hired as head cook at Riverside at a salary of \$2420 and Josephine Rands as assistant at \$2230. Alice Vance was hired as secretary at the District office on a half-time basis at \$190 per month.

Certificated employees given contracts were Miss Sarah Andrew to teach Language Arts and French at Ione. She is a graduate of Grinnell College at Grinnell, Iowa. She is on Step 0 of the salary schedule at \$6960 plus 3% assisting in Girls sports.

Delton LaRue was given a contract to teach math-science at Ione. He is a graduate of Pacific University and has 10 years teaching experience at Lostine, Fossil and Mollala. He is on Step 8 of the salary schedule at \$9150. He will receive an additional 8% for coaching basketball and 5% for baseball.

Financial Report

Mr. Daniels reported there is a balance of \$113,711 as of July 1, 1971. The financial condition of the district depends somewhat on whether the Boeing Company is to be classified under the Farm Deferral Program. In the event that it is, a great part of this balance will be required to repay the Boeing Company.

The board gave authorization to borrow up to \$200,000 this year. Supt. Daniels reported there was enough to pay the August pay roll and the September bills. They anticipate receiving \$60,000 in basic school support in August. The district only borrows enough to pay the current bills and pay roll as it is needed.

Bus Runs

The board considered bus runs and alternatives to the Robert Hoskins ranch, the Lindsay Kincaids, the Milton Millers who have moved out to the Ebb Hughes place and Gerald Reas who have moved out on the bombing range.

In the matter of the Gerald Reas, the distance is about equal to the present end of the Riverside bus run. Its 15 miles into Riverside and 30 into Heppner. Mr. Daniels noted the problems that may be encountered at this sage and sand country is filled in with homes. The distances to be travelled would be examined closely as a matter of economics when a second bus may be required.

The board voted to abide by the policy of paying 10c a mile in lieu of transportation to families off the regular runs.

Dry Well at Riverside

Mr. Daniels reported that the filling up of the dry wells at Riverside is slowing down. A record is to be kept of the rate of rise by periodic measurements. It may be that no corrective measures will need to be undertaken at this time.

John Brandt, new board member from Irrigon, was given the oath of office by Board Chairman Jerry Peck.

A statement on the Teaching of Reading and Improvement of Reading Instruction with emphasis on prevention was distributed. This paper was developed over a period of ten months and reflects the combined efforts and ideas of school board members, administrators, teachers and Morrow County Curriculum committee members.

District Has Standard Rating

Mr. Daniels announced that for the first time in 10 years the district has received a standard rating. Previously the district has been rated substandard due to building deficiencies. He noted that the district should follow up on recommendations made by the evaluating team or the district will slip to substandard again in 4 or 5 years. He said that the board would notice that many of the recommendations made by the team were already listed on the District's Long Range program.

The date for the Long Range Planning Committee meeting was deferred until late in September. Advisory committees are to provide a list of people from their areas to fill vacancies on the Long Range Planning Committee.

In-Service Open to Public

Due to the lateness of the hour the summer maintenance and remodeling program was briefly sketched and the Teacher In-Service Program was briefly reviewed. The Teacher In-Service day on Sept. 2 is open to the public on Drug Education. Parents and others interested are urged to attend any part of the day or all day. There will be a no-host luncheon at noon.

The next meeting will be Sept. 20 at 8 p.m. at the District office.

The meeting adjourned shortly at midnight.

Big County Fair To Start Aug. 23

(Continued from page 1)

courts and other entries are invited. No advance entry is necessary.

An all-around cowboy will be chosen at the rodeo and he will win a set of Premium tires. A saddle is given for the Morrow County amateur calf roping champion. Hard-luck cowboy will receive an award, and many other prizes will be given.

Rodeo stock will be furnished by Ronnie Raymond of Double R Rodeo Company, Paulina, Ore. for the RCA approved event.

Those entering the rodeo must have their fees paid to Patsy Raymond, rodeo secretary, by Friday, Aug. 27, at 6:00 p.m.

Queen Crowned At Big Event

(Continued from page 1)

Ione Grand Squares. Caller is Darrell Wilson.

Musical numbers were presented by the Sundowners, a Grass Valley combo.

Mark Neal presented a unicycle act a difficult feat on the slick grass.

Winners

Winners of the innertube race were Maureen Healy, Teresa Peck, Jana Steagall.

Winners of the Suitcase race: Mary Healy, Debbie Peck, Mary Abrams.

Winners of Lance-the-spud race: Jack Yocom, David Steagall, Susan Healy.

Prizes were provided by the Morrow County Jaycees and the Heppner-Morrow County Chamber of Commerce.

Come to the Fair Visit 4-H Exhibits

What is more American than the hustle and bustle of activity at a county fair? Are any events more appealing than the youth activities and exhibits?

The public is invited to attend all 4-H events including demonstrations and contests.

Four-H Home Economics and all miscellaneous 4-H exhibits are on display in the Annex building, open to the public each day and evening of fair.

Four-H livestock exhibits in the barns are always ready for visitors!

The best exhibits are the 4-H boys and girls, busy with contests, learning by doing.

Events you'll want to attend:

Favorite Food Show — Tuesday evening, 6-8 p.m.—Annex.

Square Dancing Exhibit — Tuesday evening, 8:30 p.m.—outside Annex.

Style Revue — Wednesday evening — 8:00 p.m. — Grandstand arena.

Dog Show and Fun Match — Thursday, 12:00 noon — Little League field.

Pig Scramble — Livestock Awards — Livestock Auction — Thursday, 7:00 p.m.

Plan to see all phases of 4-H in action at the Morrow County Fair, August 23-27.

Emergency Work Day Scheduled August 22

"We're bulging the seams—and overrunning the barns" said Birdine Tullis, with 4-H, FFA and open class livestock registrations at an all time high for county fair!

The call is out for volunteer labor Sunday, Aug. 22, to put the final touches on the fairground, build panels and pens to accommodate the record number of livestock and have everything in top shape in anticipation of one of the biggest fairs ever held in Morrow County.

All 4-H & FFA classes and events have larger pre-registration than in the past. With special exhibits and demonstrations added to open class, a larger than usual attendance is anticipated.

Fair Board, Fair Committee and Extension Service will be on hand at the fairgrounds Sunday afternoon to assist in the work day. Fair superintendents, 4-H leaders and parents are encouraged to turn out for the old fashioned "get ready for fair work day".

Ag Tour, Dinner Much Enjoyed

(Continued from page 1)

planted potatoes, dry beans and some safflower and a little milo. Sample potatoes dug up looked good.

Dinner

A roast beef dinner was enjoyed at Dodge City Inn.

Chamber President Gene Pierce was master of ceremonies for the event. He introduced Boardman City Council representatives, Shirley Zielinski and Mr. and Mrs. Ron Black and Heppner Mayor Bill Collins.

Assistant Project Manager for Boeing, Elton Weeks and Mrs. Weeks were introduced.

Port of Morrow Manager Rupe Kennedy introduced six men from Portland General Electric Co., who are looking for Eastern Oregon nuclear power plant sites.

Port of Morrow Commission chairman Gar Swanson and Commissioners Dick Krebs, Larry Lindsay and Oscar Peterson were introduced.

Presented to the group were County Judge Paul Jones and Commissioner Walter Hayes, County Assessor Joyce Bergstrom and Specialist Dick Schlichting.

Mr. Greer, vice president of Desert Magic Farms was introduced.

Speakers

Denver Grigsby, head of the Boeing project, told of their agricultural development covering some 60,000 acres of their 100,000 acre tract in North Morrow County. His talk was interspersed with a quiet and pleasing humor. Mr. Grigsby told of the first 1800 acre development being irrigated for pasture soon.

There will be considerable row crop development in an orderly fashion. He said Boeing is not interested in a boom and bust philosophy but wish to make a steady progress in their immense development. This includes all kinds of agricultural things from pasture, row crops and even growing cottonwood trees for wood pulp.

Mr. Grigsby told of their proposed garbage disposal in one area which he feels will enrich the land. It is soon to be tried in an experimental way. From Portland will come barges loaded with shredded trash: glass, cans and probably around 70 percent paper products. This will be placed on the land four inches in depth, covered with a quarter inch coating of liquefied solid wastes then disced

under. They will leave this for about a year or so.

One test plot of 20 acres is mostly sand dune and they will try out their belief that the covering of waste material will prove a beneficial stabilizer.

The area will be under circles for presoaking. They believe the high evaporation and lack of natural moisture in the area make it greatly suitable for this purpose. There is very little run off there. They believe leaving the soil treated in this manner for about a year will result in the break down of the material into natural elements. Mr. Grigsby said they do have some problems on convincing some environmentalists of the feasibility of their plan.

He said the barge shipping rate was about a fourth of the railroad rate.

Desert Magic Farms

Howard Kartchner of Desert Magic Farms told about forming their corporation with some 20 stockholders. The group will spend some two to two and one half million dollars in Morrow County this year in developing their new farms in the Peterson Ferry area. Mr. Kartchner formerly managed 10,000 acres of row crop land near Ontario for the Heinz Co. He said they would have some 6000 acres under irrigation in 50 days.

He stated they came here to make a profit and are anxious to do everything they can to improve the area.

Some drawbacks here are a lack of population and a lack of available labor.

He stressed that attracting investors here needs cooperation on a team effort basis. He added that today's farming is the most competitive business in the world. Large farming is here to stay because of high costs. Markets are changing and if farmers don't change with them, they will shortly be broke. He expects this to happen to almost 2 million farmers as he figures 600,000 farmers can feed America.

He said a pellet mill or cubed plant will go in the area some place to handle the alfalfa. His firm expects to market one third fresh potatoes and two thirds processed.

Rupe Kennedy

Rupe Kennedy, manager of the Port of Morrow, said he felt the Boeing Co. will function well in their project and Morrow County is extremely fortunate in having them here. He said

their enthusiasm is invigorating. He expects other processing plants in the area in addition to the newly announced Lamb-Weston plant coming to Hermiston.

He expressed a belief that nuclear power plants and their beneficial irrigating features will be forthcoming in the area. He is hopeful that the military road crossing Washington diagonally will have an acceptable route soon. A bridge at Boardman would have many advantages.

Boardman, he said, is having a team of planners prepare the plans for a wonderful new city. He told of Boardman's waterfront park and the available recreation.

Mr. Kennedy stressed the coming importance of county zoning, which he terms an absolute necessity because of the nuclear power plant siting. This, he said, will protect the values of others.

There are to be 30,000 acres in private development along the waterfront with processing plants and dairy locations. He told of the Port of Morrow developing an industrial tract.

Mr. Kennedy complimented those who were on the nuclear siting committee and the high school students who conducted the county-wide meetings.

He said 1973 could be the date of new land receiving water. Morrow, Umatilla, Sherman, Gilliam and Wasco Counties are the only ones in Oregon to get Columbia River water, he said. He was commenting on the possibility of California "raiding" the Columbia for irrigation water. He would advise using our fair share in a multiple use method.

He concluded with the statement that the people of Morrow are a pleasure to work for. President Gene Pierce promised this meeting would no doubt be noted as an annual event for the Chamber of Commerce.

4-H Horse Members Off to State Events

Five Morrow County 4-H members will represent Morrow County Horse Clubs at State Fair this year. Qualifications to attend was determined by total points scored at the 4-H Horse Show Sunday.

Marianne Pettyjohn, Ione, will participate in Senior Horsemanship classes Aug. 25. Intermediates Mary Healy, Heppner, Denise Henkle, Boardman, and Dawn Peterson, Ione, will participate in Intermediate events which start Aug. 23.

For the first time in several years Morrow County will have a Horse judging team at State Fair. This team was selected from highest scores in the horse judging contest held during the 4-H Horse Show. The team members are Mary Healy, Marianne Pettyjohn, and Judy Bennett. Horse Judging contest will be Aug. 22.

Two Morrow County Rodeo Princesses qualified to attend State Fair but Jan Schlichting and Dovie Alderman find their numerous royal duties prohibit their attending the State event.

Mr. and Mrs. Glenn Smith took a vacation in Canada. They visited four National Parks and all the wonders to be seen at Lake Louise and Banff.
