### Ione Library

Mrs. Van Hubbard, Ione, secretary of the Ione Library Board and a member of the Topic Club has contributed the following book review.

Pearl S. Buck's novel of India, "Mandala", centers around a modern princely family of the New India. She explores the mysticism that pervades everyday life there. Extrasensory perception, reincarnation, and spirits are very real concerns of the Maharana Prince Jagat and his family.

Prince Jagat is the virile descendant of a warrior people. For the first 40 years of his life, he has been content to expend his passion on tiger hunts. Political events strip him of his titles and most of his wealth, but not of his sense of responsibility to the local villagers. As the novel opens, he is embarking upon a scheme to turn an opulent but ghost-ridden lake palace into a luxury hotel for foreign tourists.

When news reaches him that his only son, Jai, has been killed by the Chinese in a border skirmish, his life changes even more. Convinced that Jai's spirit lives, Jagat's wife, Moti, will not rest until he sets off to find their son. The journey is a fateful one, for it involves Jagat with a beautiful and mysterious young American woman. The fatal attraction between East and West, man's search for completion, and the awesomeness of Time affect all the characters in "Mandala."
