

OPPORTUNITIES

A Soroptimist Area Day is especially important to members in smaller communities in more remote areas. Distance, time factors, and the expense prevent many of them from attending the educational, inspirational, and beautifully organized District Meetings, Regional Conferences and Federation Conventions. Area Days also afford smaller clubs with rather limited facilities the opportunity to be a hostess club.

Area Days offer all members an experience of larger fellowship, opportunities to get acquainted with District and Regional officers, opportunities to reach beyond their local club levels where they must be under rather constant pressures with projects and reports on projects.

Here we can really work at growing in understanding of our organization because we are unburdened with area projects or any very formal organization. Here we hope all will speak out, pose questions, suggest answers—really participate.

The Heppner members are so happy with this opportunity to have you in our "home". Please come often, good neighbors!
