I no longer am the only woman in Morrow County who has not made the Oregon Wheat League cake. I saved making it for a special occasion. This presented itself when my brother Don Lake and his family came from Vashon Island recently. It was delicious and easy. I didn't use the frosting because I like apple sauce fruit cakes better without frosting.

OUR apologies to Toni Toll, sophomore who was recently elected varsity cheer leader. Sorry I got the Toll girls' names mixed. It wasn't Tami who is an 8th grader!

The Art Show was terrific held recent Tuesday evening at the Elementary School multi-purpose room. It was too bad to have so much work show for only one night. Maybe a two-night show would give an opportunity for those who couldn't go the first night a chance to see it the second night. It was too good to be missed. AND lots and lots of work just to arrange it. Tom Shear deserves lots of credit for his efforts in the Art Department.

SPECIAL WEDNESDAY, MAY 17 will be pre-registration day at the lone Elementary School.

All children who will be six by November 15, 1972, are invited to attend. If you are a rural student and live on a bus route, you may ride your bus to school that morning.

Students will spend the morning in the first grade room where they will learn about what they will do as first graders. They also will tour the school buildings and become acquainted with their surroundings.

Everyone will eat lunch at the school cafeteria and be excused to go home at 11:45. Parents are asked to pick up their children at that time.

MR. AND MRS. ARNOLD RAYMOND and family were Sunday Supper guests of Mr. and Mrs. Charles Heard at the Heard's cabin. This was a belated birthday supper for both Arnold and Valerie.

CECIL JONES is retiring after serving 12 years on the lone Advisory Committee. The Advisory committee members and Principal Dennis Brandon would like to say "thank you" for his many years of service and appreciate the work he has done. John Edwards has been elected to fill the vacancy on the Advisory Committee when Cecil chose not to run this year.

Bronate Is Available From

Serving the Heppner, Ione, Lexington and Arlington Areas

OUR COMPETITION RECOMMENDS BRONATE.

Our competitors think so highly of Bronate as a broad-leaf weed killer in wheat and other grain crops that they want you to tank mix their products with Bronate.

While we appreciate the compliment, we don't necessarily go along with the recommendation.

Because while the addition of less effective herbicides to Bronate may help the other herbicides, it doesn't help Bronate. Matter of fact, it can hurt Bronate.

Unlike many other herbi-

cides, Bronate kills your weeds without damaging your wheat. And tank-mixing reduces Bronate's high degree of selectivity.

Also, unlike other herbicides, Bronate isn't restricted to any particular soil type or condition. And tank-mixing limits Bronate's wide range of application.

Use Bronate alone if your weed problems include Tarweed, Gromwell, Henbit, Dogfennell, Crowfoot, Purple Mustard, and the rest of the Mustard family. Or any of the

23 other kinds of weeds listed on the Bronate label.

Our experience has shown that Bronate used alone has increased productivity for Northwest wheat farmers by as much as 20 bushels per acre.

Is it any wonder our competitors recommend Bronate?

For more information on how Bronate can help you, see your supplier or write Mr. R. P. Rich, Rhodia/Chipman Division, 120 Jersey Avenue, New Brunswick, N.J. 08903.

BRONATE DOESN'T NEED ANY HELP.
