Good Response For Survey

Heppner Merchants chairman Dick Sargent reports that 1546 questionnaires were mailed out recently to residents of Monument, Kimberly, Spray, Fossil, Kinzua, Heppner, Lexington and Ione areas and the rural residents.

The Oregon State Extension Service reports that so far they have received a 30 per cent return on the questionnaires which is believed very good.

Cut off date for receiving and processing the survey questionnaires is June 10th. If you haven't yet mailed in yours, please do so now, as your comments are important to the total effort of the Heppner Merchants and the Oregon State Extension Service.

Jim Misses Graduation

The vacant chair at Heppner High's graduation was meant for Jim Van Winkle, a 1972 graduate in good standing. Jim was not there because he was one of the 81 bull riders at the Eastern Oregon Junior Rodeo at John Day earlier that day. Of the 81, Jim's father, Jack Van Winkle, reports that 4 or 5 were taken to the John Day hospital. Jim was dragged around the arena and stepped on and needed to be checked at the hospital. He was released and came back to Heppner with Jill Rugg and her mother. He is ok again now.

Carol Sue is Magna Cum Laude

Mrs. Robert (Carol Sue) Jones of Heppner received her Bachelor of Science degree Saturday in education, at ceremonies at Eastern Oregon College. Her degree was awarded magna cum laude indicating a very high type award.

Oregon Cattlemen Honored

The Oregon Cattlemen's Assn. was named beef improvement organization of the year during the national meeting in Omaha, Neb.

Don Stangel reports that the Oregon program is conducted by the OCA's Beef Improvement Committee in cooperation with the OSU Extension Service and Agricultural Experiment Stations. Oregon Beef Council and local Cattlemen's associations.

Doug Bennett, Hermiston, is chairman of the Oregon Beef Improvement Committee and has finished two terms as president of the National Federation. He was just elected to a three year term on the board of directors to represent the Western States.

The Oregon program is centered around bull testing, progeny testing and record keeping. W. Dean Frishknecht, Extension Animal Scientist, reports that 450 herd sires are being evaluated by 277 breeders throughout the state.

To develop the program the cattlemen's association is requesting that producers put their herds on a performance testing program, individually identify all commercial cows and actively support county carcass contests.

With the continued strength of Oregon State University's Department of Animal Science, the Oregon Cattlemen's Assn. and the producers of Oregon's cattle, the cattle industry will continue to improve and add dollars to Oregon's economy.

Out-of-Town Visitors Spark Pioneer Picnic

The 19th annual Pioneer Picnic was held May 29 at the Fair Pavilion. Many out-of-town visitors returned for the Memorial Day celebration, as well as many local residents who turned out for the picnic.

One out-of-town visitor, from Portland, was Vallego McAtee Kremers. She was born on a farm outside Heppner and lived here during her childhood. She remembers the 1903 flood clearly. "I watched it from Donaldson Canyon—the one next to Shobe, you know." The flood was disastrous to her family. "I lost eight of my family," she adds, "and our house was demolished." Mrs. Kremers was one of the oldest people at the picnic, although she would not give her age.

A short memorial service was held before lunch for the honored dead.

The Three Link Club of the Heppner Rebekah Lodge was in charge of the kitchen. The dinner was pot-luck although much of the food was paid for through donations at the door. The rain-

bow Girls of Heppner helped serve the lunch.

The picnic provided a chance for old friends to get together and visit, and it also was a chance to meet new friends.

During warm weather the air conditioner will keep customers cool as they relax to soft music. Bill says the business will be open every day of every week. The closing hours will depend on the customers' needs.
