Farmers Cash Set-Aside Payments

CAN COLLECT \$1,200,000

About 473 farmers in Morrow County are scheduled to receive farm set-aside program payments totaling \$1,200,000, during July and August according to David McLeod, County Executive Director, Agricultural Stabilization and Conservation Service (ASCS).

Payments under the set-aside programs are made to farmers who agree to set aside part of their land from production in order to meet a national objective of balancing supply and demand in certain commodities. These payments help to offset the loss of returns from cropland that otherwise would be used for income-producing production, and on which the farmer is obliged to continue to pay taxes and apply needed conservation steps, according to officials of the U.S. Department of Agriculture. Payments to producers are limited to \$55,000 per person for each of three crops — feed grain, wheat, and cotton — under the Agricultural Act of 1970.

Nationally total payments are expected to be about \$3.7 billion. Total 1972 farm set-aside program payments in Morrow County are expected to be about \$1,650,000.

Feed grain producers in the nation ultimately will receive about \$1.9 billion, cotton producers about \$825 million, and wheat producers about \$1 billion. Preliminary payments to wheat producers are limited by law to 75 percent of final payments. Final wheat certificate payments will be made after December 1. Feed grain and cotton farmers may or may not get a final payment depending on market conditions.

Group prepares for Shakespeare Festival

A group of students from Heppner and Ione High Schools, and their chaperones, are now preparing for the 1972 trip to the Shakespeare Festival, to be held in Ashland in Aug.

The group will see six plays this year: one more than last year. There will be four Shakespeare plays, and two written by others. Besides the plays, the tour will include a trip to historic Jacksonsville, as in years gone by, a boat tour of Crater Lake, a backstage tour of the outdoor Elizabethan Stage and the new indoor Angus Bowmer Theater and a tour of the University of Oregon Campus on the way home.

Some of the group met for the first time July 14 and heard a tape of "Uncle Van-ya," recorded by the actors in Ashland, one of the plays they will see later in the summer.

They discussed "The Taming of the Shrew" and "Henry the Fourth, Part Two" at Liz Abrams' house July 20. It is hoped that each of the plays can be read and discussed before the trip begins Aug. 14. Those attending the last meeting besides Liz were Butch Taylor, Tracie Norene, Greg Davidson, Marie Van Marter, Kellie Kilkenny and chaperones Mrs. Bill Rawlins and Mrs. Mervin Leonard. Drill Crew for Dam Due Here in August

"Willow Creek Dam is in the preconstruction planning stage right now" Howard Hoggan of the Corps of Engineers told the Heppner-Morrow County Chamber of Commerce Monday.

He reviewed the entire process from the beginning with the flood problem and then the preliminary authorization of study in August 1937. Consideration is given to the value benefit compared with the cost, the interest of the local people and the influence they might have with those people in Washington DC.

The Corp talks to people on problems and considers non-structural solving of the problem before structural changes are made.

"Times have changed" he said, "the Corp doesn't build a single purpose dam any more but multi-purpose dams: irrigation water, municipal water, flood control and recreation."

Contacts are made with local people to assemble their suggestions, contact all state agencies such as Fish and Wildlife and Environmental protection agencies.

House Documents have been printed on the Willow Creek dam and submitted in 1945 and 1963.

Pre-Construction planning is in three areas; plant formulation study, general design, and

73 Wheat Program

Major provisions of the 1973 Wheat Program were announced July 18, 1972 by Secretary of Agriculture, Earl L. Butz. They include the set-aside required for participation, and option to voluntarily set aside additional acreage and the payment rate for the addition set-aside.

To participate in the wheat program, a producer must set aside an acreage equal to 86 percent of the farm's domestic wheat allotment—the maximum provided by law. Producers will again be allowed to substitute feed grains or soybeans for wheat to preserve allotment history. The Secretary further announced that barley will again be included in the 1973 feed grain program.

In addition to the set-aside required for participation, a producer may earn payment for setting aside additional acreage up to 150 percent of his 1973 domestic wheat allotment—twice the amount of additional acreage allowed in the 1972 program — at a payment rate of 88 cents per bushel. CAL'S CAFE AND LOUNGE has been granted a Class A dispenser license to serve liquor by the drink.

BEST DRESSED clerks at the 1972 Sidewalk Bazaar were Dick and Lynnea Sargent. Dick's Beaver Derby was authentic as it belonged to his great uncle, Stanley C. Wilson. He wore it when he was Governor of Virginia. The vest was borrowed. The watch and chain Dick's sporting also belonged to the great uncle. It is from the 1917 era.

To match up to her husband's costume, Lynnea made an old fashioned blouse and skirt. Her pin is old and was given to her by an old friend.

THIRTY DOLLARS in pennies, nickels and a few quarters were tossed in the straw during the Sidewalk Bazaar last Friday and Saturday. Money was contributed by Elmas Apparel, Murrays Drug, Mi-Ladies and Gontys Shoes. A shot of eager hunters is typical of much of the two days. "Gold is where you find it!"
