

Garden Clubs Propose to Save Native Flora on Bombing Range

A native flora project on the Boardman Bombing Range Road was accepted by the garden clubs of Blue Mountain District No. 10 of the Oregon State Federation of Garden Clubs at the fall meeting at the Pendleton Elks Club on October 3. Consideration will be made of the fifteen miles of road right-of-way from the junction of 80-N and U.S. 730 to and including the Old Oregon Trail near the D.O. Nelson ranch. A planning meeting will be held very soon with the following advisory supporters: Morrow County Judge Paul Jones, Lee Hotchkiss of the Umatilla Wildlife Refuge; Larry Smitton, Pendleton, a member of the Oregon Trail Organization; Rupert Kennedy, of Morrow County Port Commission; and Mrs. Frank Mackness, Oregon State Federation of Garden Clubs Native Flora Chairman of Troutdale, and possibly others.

ports by the 13 standing committee chairmen. Mrs. Wallace Wolf, program and yearbook chairman was unable to attend. Mrs. F.T. Martin, lone is Litter-Control chairman and State Horticulture (East) chairman.

The clubs were encouraged to contact school children to participate in the Conservation essay, poster and poem contest on harmful garden plants and noxious field plants. Mrs. Lee Pettyjohn is local committee chairman.

Oregon wants to be first in Pacific Region.

Mrs. Van Hubbard and Mrs. Martin made the flower arrangements for display for the local club.

Following the meeting garden club members and guests attended the dedication of the plaque and bench project of the Dirt Dabbler's club at the Pendleton airport. All women interested are asked to bring a sack lunch, wear their grubbies, and join the tour. This added attraction to the study group lesson on potatoes is by special invitation of D.O. Nelson. Potatoes are big business in Morrow County's economy. For additional information on tour, please call 676-9642 (or for directions to the Nelson farm).

HOMEMAKERS WOND'ERING WHAT TO DO with the deer brought home by their hunter husbands will be interested in four free Oregon State University game bulletins. Extension home economist Molly Saul particularly recommends "Treats with Venison", written by Andy Landforce, OSU Extension Wildlife Management Specialist.

Mrs. Saul states that if the information in this bulletin is followed carefully the family will enjoy tasty and tender venison meat. The Bulletin includes information on every phase of taking care of the deer from the field to the kitchen. Information is included on how and when to dress the carcass, how to handle and transport the meat, aging of the meat and cutting yields. An entire section is devoted to tested venison recipes. Mrs. Saul notes that many less known ways of using venison are included, such as in cookies and mincemeat.

It is emphasized in the bulletin that the most important step in getting delicious venison served at the table is the proper preparation of the animal in the field, followed by boning out the deer, the advantages of boning out the deer are that it separates the good meat from the connective tissue, fat and off grained muscle, and makes suitable sized chunks of meat for the cook to prepare properly. Also less freezer space is required when the meat has been boned.

Three other bulletins written by Andy Landforce of general interest to the hunters and their wives are: Game Foods, Boning Out Your Deer, and A Smokehouse for the Sportsman and Hobbyist. All are OSU Extension bulletins, and are available at no cost from all county Extension offices.
