Cherie & Charles Get U.P. Awards

PLEASED, WITH Union Pacific scholarship awards, are Cherie Carlson, right, lone, and Charles Acock, Boardman, who won \$400 checks from the railroad for outstanding scholastic achievement and work in 4-H and vocational agriculture.

Union Pacific scholarship winners, Cherie Carlson and Charles Acock, were recipients of \$400 checks, presented at a railroad sponsored awards dinner at Oregon State University, where they are freshmen.

Cherie, daughter of Mr. and Mrs. Louis Carlson, lone, is a home economics major at OSU. Charles is majoring in pre-veterinary medicine. His parents are Mr. and Mrs. C. W. Acock of Boardman. They were among 15 UP scholarship winners entering OSU this fall, who received checks.

T. J. Rouse, UP manager of training and development, who supervises the scholarship program, said UP will continue its 51 year old program of granting scholarships to outstanding high school seniors engaged in 4-H Club and vocational agriculture (FFA) activities, in counties served by the railroad.

Rouse also announced changes providing greater flexibility in the granting and use of the awards. Rouse said winners entering college next fall will be able to use their grants at any accredited, degree granting institution, and pursue any course leading to a bachelor's degree. This includes accredited junior and community colleges granting credits nationally transferable to senior colleges and universities.

Previously, UP's scholarships were limited for use of land grant colleges, and in courses related to agriculture and home economics. Rouse said interested students may apply by obtaining application forms and eligibility details from their vocational agriculture teacher or county extension agent.

## Mustangs Overcome Huskies

By GREG GREEN

Sherman County scored first in the game and built up a 12-6 lead over Heppner by halftime, but two Mustang scores in the third quarter meant the deathblow for the visiting Huskies. The win insured Heppner of second place standing in the league, one game behind the Umatilla Vikings.

Heppners first score came about in the first quarter when Mike Bergstrom ran 46 yards for the score. Rick Drake's extra point kick failed.

Sherman scored again in the third quarter.

Allen McCabe took the ball over for the Mustangs second 6 points from the two yard line. The extra points play failed. Then Karl Harrison a few minutes later took a 15 yard pass from Jerry Gentry for the games final TD. McCabe ran for the two extra points.

Heppners defense only allowed the Huskies 3 yards rushing but allowed Sherman 107 yards from the air.

Mike Bergstrom led Heppners rushing with 95 yards in 12 carries averaging 7.9 yards

per carry. Gentry had 30 yards in 7 carries and McCabe took 25 yards in 10 carries Heppners rushing totaled 146 yards.

## Morrow County Jaycees Begin Drive

Morrow County Jaycees were informed last Wednesday that their organization charter is in jeopardy. According to State Vice President Bill Elfving of Pilot Rock, the United States Jaycees have set minimum membership standards at 20 members in order for a chapter to be genuinely capable to carry on a Jaycee program. The Morrow County Jaycees are not currently in conformity with this standard.

An effort is now underway to remedy the predicament. The Morrow County Jaycees are currently inviting men between the ages of 21-35 who are interested in this community, in having fun while doing a lot of good, and in meeting other people to join the organization. Interested young men are urged to contact:

Cliff Wood - 676-5385; Archie Ball - 676-9905; Ed Struthers - 676-9936; or Bill Lande - 676-9752.

## Rep. Hansell Throws Different Light

Representative Stafford Hansell the dinner speaker at the Tax Forum held last week in Heppner reviewed some of the points of Governor McCall's proposal for school financing. He said the basic part of the governor's program would support the school but "it's a little gray how to get the money back to the school districts". In talking it over with the governor, Mr. Hansell asked "What will this do to local control" to which the governor answered "Local control is a myth". Stafford laughed when he asked the governor to go with him to Umapine, Helix and Ukiah and tell them that.

Other committees in the legislature are working together and will probably present a program to support 50 percent of the school costs. He said "except in extreme emergency a sales tax won't be considered".

We could increase the liquor tax and pickup 10 million dollars. Increase tuition at the state schools has been considered. Another area few have had enough nerve to mention is "Economy in government". Homeowners relief is going to cost. No single new source could finance the school program.

The measure is to repeal the
