Will Replace Main St. Trees

The removal of eight potted trees along Heppner's Main Street is due to the work of Heppner High's National Honor Society.

The energetic group dug up only the dead trees. The barrels will be stored at the high school for the winter, and in the spring, will be replanted with new, young trees in hopes that those will grow.

The trees were planted in the green barrels in April of 1972 during Heppner High's Environmental Awareness Week. The eight, all evergreen shrubs, had turned brown early in the summer. As one of its projects for the year, the Honor Society decided to remove those trees, with permission from the merchants that owned each one, store the barrels for the winter, and then replant and return the barrels next spring.
