When the program is going well and beef is being consumed in a quantity never matched before, producers sometimes feel they'd like to let up on Beef promotion. Don tells about attending a meeting where they were served meat loaf for dinner that didn't have any meat in it which he said "is the best reason why beef has to keep promoting".

In the state of Oregon last year Beef Certificates sold, amounted to \$80,000.

Talking before the Morrow County Cowbelles Saturday at their tea and style show, Don explained the Beef imports. He said that 110 Safeway Stores and 1800 other retail stores had promised to sell only American beef which is 100 percent government inspected as compared with only 2 percent inspection of imported meats.

At the state meeting a resolution was passed that would require all meat pass the same inspection. Also that imported meat should be labeled with the country in which it originated.
