

Carolers Entertain C of C

The 7th and 8th grade girls chorus entertained the Chamber of Commerce members with Christmas music Monday. They were directed by Bob Jespersen. The girls sing with enthusiasm. For many it was their introduction to two-part singing.

They sang the French carol, "Ding Dong Merrily on High; The Snow Lay on the Ground, the English carol, What Child is This; Pat O'Pan and Angels We Have Heard on High."

This is the last meeting of the Chamber until next year on January 8.

A Christmas Prayer

PLEASE, GOD
Lord, protect the animals...Be these creatures wild or tame...Those that may be injured now...And as well the sick and lame...Spare them from the cruelty...By an angry human hand...And from all the persons who...Kindness do not understand...Give your pity on this day...To those creatures hunted down...In the forests and the fields...And on streets within our town...Be they birds or cats or dogs...Be they trained or just a pet...Lord, we humbly ask of you...Not a single one forget...Lord protect the animals...That in loneliness may roam...And the hungry, thirsty, too...That have no home.

Merry Christmas

WE'VE GOT A DOG

We've been kinda watching for a dog since ol' Dewey was killed over a year ago. Charlie grew up with a German shepherd and he thought this was the kind of dog we should have.

I kept telling him there wouldn't be room for us in the car if we had a big dog. Anyway week before last, Mrs. Don Cole was talking to me about putting in an ad to Give Away a dog. She said he'd been around the school for several weeks then he was hit by a car. She took pity on him and took him to the vet. He'd been with them about a month. He'd be gone two or three days. When he'd come back, they'd put some more medicine on his wound and off he'd go for another while. But he's every thing she said about him.

Her boys called him Pepper so that's what we've called him. His bangs come down over his eyes and he peers through them as he keeps an eye on you. Being something of an orphan, he needed lots of assurance but at the same time he appreciates everything you do.

He's had training somewhere along the line. He heels whether he's on the leash or not. He is real smart and learns fast. Jo (Wood) gave him a red jeweled collar that one of her dogs had outgrown. I told her she was making our dog a sissy but he's wearing it.

He has a second bed under my desk at the shop. We think he is a real fine little dog. He and Daffy our yellow cat get along very well. Daffy doesn't know that cats are supposed to run from a dog and Pepper must have had dealings with cats before because at first he gave Daffy a wide berth. Daffy tries to get him to play and they are beginning to.

We are delighted with our new dog.
